CRIME AND CASUALTY.

THE LATE FIRE AT SERAJEVO.

Great Destruction in the Ruined City—The Way St. Louis Policemen Do—A Couple of Blackwell Prisoners Released by Roughs—Disappearance of a Lawyer.

SERAJEVO, August 11.—The conflagration was prevented from spreading during Saturday. There were a few isolated outbreaks among the ruins and some of the warehouses are still burning. Some of the large firms in the city estimate the damage at more than 100 millions florins, but this is thought to be exaggerated. The homeless people are camped in the squares and gardens. A relief committee has been organized. The emperor of Austria has forwarded 10,000 florins in aid of the sufferers. It has been definitely ascertained that the fire was caused by the explosion of some spirits, as was at first stated. The greater part of the troops have been removed from the town in order that families rendered homeless by the fire may be quartered in their barracks. Provisions have been served out to the inhabitants from the military stores. The duke of Wurtemburg has organized a committee for the purpose of rebuilding the burned district. The fire destroyed 288 houses, 358 shops and 48 warehouses. The loss to private property is estimated at 1,000,000 florins. There are no insurance.

Owing to the scarcity of provisions prices, already high, have been increased. The fire was caused by an accident which occurred while the excise officers were sealing the flasks in the spirit warehouse. One thousand houses and eight hundred stores were burned at Serajevo. The loss of life by fire is small. As the fire at Serajevo has destroyed an immense quantity of army stores, a reconstruction of the town will require a great sum.

PHILADELPHIA, August 11.—William Vance Harper, a lawyer, has disappeared after defrauding various clients to the extent of nearly $17,000. In one case he appropriated a large sum which belonged to three orphan children of whom he was guardian. Several people, mostly of the poorer classes, who had given him money to save or invest are among his victims.

WASHINGTON, August 11.—The signal service station corps at Norfolk, Virginia, reports to the chief signal officer as follows: The captain of the schooner E. H. Pray reports that her mainmast was carried away yesterday evening six miles north of Cape Henry with all its attachments; lost her yawl boat at the same time. She was from New York for Norfolk with a general cargo. She arrived without other serious damage.

PETERSBURG, VA., August 11.—This morning the grocery store of S. H. Stevens was discovered to be on fire, and before the flames could be extinguished the stock, valued at $5,000, was almost entirely consumed. The building belonged to O. B. Morgan and was partially destroyed. The stock was insured for $2,000, and the building for $3,600. The store was first robbed and then set on fire.

NEW YORK, August 11.—Two Blackwell's Island prisoners who were patrolling the river in a boat with their keeper, Stephen Kelly, to-night were rescued by a party of roughs, who upset the prison boat and carried them off, leaving the keeper to drown. He was picked up, however, by a pleasure boat after being in the water half an hour.

ST. LOUIS, August 10.—Wm. Wallace, a policeman of East St. Louis, and Jack Sullivan, shot one another in a quarrel in a saloon near the stock yards to-day. Sullivan, who was the aggressor, died in half an hour. Wallace is badly wounded in the thigh.

LONDON, August 10.—A private letter from Alexandria states that one Mirzam a broker, and a naturalized American citizen, recently attacked Dahan Pasha, confidential agent of the ex-Khedive Ismail Pasha, near Bourzé, in consequence of a private grudge. Mirzam struck Dahan Pasha with a cane. The latter fled and Mirzam then shot him dead. Mirzam surrendered himself to the authorities and is now in prison.

HEMPSTEAD, TEX., August 5.—The recent dreadful murder of R. R. Booth, Esq., a promising lawyer in this town, recalls the many murders and assassinations that have occurred in this (Waller) county during the past year. The list is a terrible one. First, is the massacre of the Lynch family. This occurred in the fall of 1878 in the southeastern part of this county, and was so horrible as to exceed belief, and its publication in the northern states was put down as a canard. It will be remembered that Lynch, a respectable farmer, whose wife had died a short time previously, was awakened out of his sleep by the report of a pistol and a ball striking him. The ball went through his lungs, and that was all he remembered until he found himself in a lane outside his yard and his house in flames, in which his two young daughters—one a beautiful girl of seventeen—and five other children perished. A singular circumstance was that the manner in which the charred bodies of the seven children were found showed that they had not turned or changed their positions in their beds. It ever has been the belief that they were first murdered and then the house fired to cover up the crime. The motive and the perpetrators of this dreadful human sacrifice to the flames have since remained a profound mystery, nor have the authorities of the country or of the state ever made any attempt to ferret out the authors of the massacre. The devils incarnate that sent these poor innocent children to eternity are yet unknown, and it now looks as if they will so remain until the secrets of all appear in the great day of accounts.

The Lynch massacre, dreadful as it was—more appalling than anything the Indians ever did in Texas—has been followed by a series of assassinations scarcely less terrible. The next in this list of blood was the murder of a quiet, inoffensive young man, Robert Finklea, in Hempstead, during the winter, by a cattle owner and stock man, R. W. Crawford. The murder occurred in a saloon about midnight, the body of the murdered man being dragged across the street and left on the steps of another barroom, to lead to the conclusion that the killing had occurred there. The blood was washed up from the floor where the unfortunate Finklea was shot down, nor has his murderer since been seen.

Close upon the heels of the death of Finklea followed the assassination of Edward Greer and Lewis Cooper, both good citizens and the latter a constable, in the southern part of the county. Cooper was unarmed and was shot down while begging for his life and his little children. His murder was a cold-blooded and deliberate one, and yet his murderer, John O. Greer, was given but five years in the state penitentiary.

Last spring a dreadful and cold-blooded assassination occurred at the door of the Methodist church of Hempstead. A young man named Kirby, having a grudge against an old gray haired man, John Steele, hearing that he was in the congregation at church, it being Sunday, procured a revolver and stationed himself at the door till the congregation was dismissed. Steele was about the first to step forth, when Kirby deliberately shot him down. There was not an ameliorating circumstance about the murder, and yet the court of appeals of Texas gave the murderer bail in $10,000, it being charged by the local paper, the Waller County Courier, that money had been used with the court.

The next terrible assassination was Thomas Loggins, a respectable citizen, who, while riding out of town, way waylaid by Daniel Morris, concealed behind a tree, and deliberately shot and killed. Subsequently, near the same spot, the three Logginses, friends and relatives of the murderer, also waylaid and assassinated Reuben Morris, a justice of the peace, and a brothar of Dan. Morris.

The last, but not the least, fearful assassination here was the killing of R. R. Booth, a good man and promising lawyer, shot down apparently about a glass of beer, for which he had himself paid. None of these assassins have been hanged, and it is believed by citizens that this is by no means the end of this bloody series of startling crimes.

ST. JOHNS, N. B., August 11.—The Moniteur Acadien gives the following particulars of the recent disastrous storm at Buctauche: The tornado first manifested itself at Rock Cave, two miles above the parish, where it took the form of a water-spout and then moved slowly eastward, tearing swath through forest and scattering barns and farm houses, over field, until, with terrible violence, it struck Buctauche, lifting two arches bodily from a large bridge south of the channel and dropping them in ruins 100 yards away. It then swept through the town, raising houses thirty feet in the air and dashing them to pieces, and carrying away the steeple of the church and everything moveable, and leaving the church presbytery in a mass of ruins. Three persons were killed and 14 badly injured. The number of houses destroyed is more than 80. The damage will amount to fully $100,000.

Special dispatch to The Constitution.

MACON, August 11.—There was another lively and unfortunate difference in this city this evening between an editor and a fellow-citizen. Colonel H. H. Jones, of the Macon Telegraph and Messenger, and Mr. Sam Jemison, city attorney, had an altercation, growing out of the old cowhiding affair of last summer, in which affair Colonel Jones was the victim. In the encounter this afternoon canes were freely used, but no serious damage was done to either of the combatants.

TROY, N. Y., August 11.—Frank Brennan, a teamster 21 years old, while attempting to stop a fight on the street to-night, was stabbed by an Englishman named Garrett, and died in fifteen minutes. He leaves a wife and two children. Garrett was arrested.

GALVESTON, August 11.—A special dispatch to the News from Weimar says that Ben Coleman, while intoxicated, rode off to a wagon-driver, Jose Costilla, a Mexican, and ordered him to dismount. Upon his refusal to obey, Coleman drew his revolver and shot him dead.

A Special to the News from Rockwell says reports from Titus county are to the effect that Jeff Hopkins outrage a white woman and then murdered her and her infant daughter and set fire to the house to conceal his crime. Charred skeletons of the woman and child were found in the ruins. Four buckshot were found in the woman's back.

The Wallace Committee.

Special dispatch to The Constitution.

PROVIDENCE, R. I., August 11.—Before the Wallace committee to-day Secretary of State Addemen gave figures of the votes at several times upon propositions to amend the constitution, beginning in 1853 under democratic administration, when it was voted down. He thought the democrats, if they were agreed, could repeal the property qualification, with what republican aid they would get.

Dr. Edwin M. Snow, superintendent of state census, testified that, in his opinion, the number of naturalized foreigners disfranchised by the constitutional restriction is 1,000 to 2,500.

Disorderly Miners.

Special dispatch to The Constitution.

SAN FRANCISCO, August 11.—An Eureka, Nev., dispatch says the charcoal burners' association, numbering 2,000, mostly Italians, working about 30 miles north of the city, struck for higher wages, refused to allow teams from the mills to load, ordering them back to town and defied the sheriff and posse. The governor has called out three companies of militia; they leave by special train to-night.

The Run on the Bank.

MONTREAL, August 9.—The run on the City District savings' bank ceased to-day, and a much better feeling prevails. The officials in the Ville Marie bank say they will reopen in a few days—soon as they are able to realize enough on their securities to meet all their demands. The business, which was almost suspended yesterday, has been resumed.

Jumping Jail.

Charles Beresford, the forger, and Ayers Jones, charged with the killing of Hewel McIntire, made an attempt, Saturday night, to escape and were recaptured by old Whit and Captain West, guardians of the jail. Beresford was induced to come down an iron rod which he was climbing, by a load of bird-shot, which took effect in his thigh. Beresford says that he wished that the load had gone in his head.

A Huge Baptizing.

MADISON, GA., August 11.—On yesterday afternoon a large crowd of spectators witnessed the baptism of 88 negroes at "Heyser's" fish-pond. This makes 245 that have received the "baptismal rites" in consequence of the late protracted meeting at the colored baptist church here. The meeting is still progressing with great vigor, and the prospects are that many more will be converted.

A Little Cool.

LONDON, August 11.—A telegram from the St. Petersburg correspondent, in connection with the report of the coolness between Russia and Germany, says: It has been decided to construct four new fortresses on the Russo-Prussian frontier, viz.: Koono, Grodno, Billostok and Gowets.

Did Conkling Kill Him?

NEW YORK, August 9.—Active search is being made here to-day for Colonel John F. Mines, journalist, who mysteriously disappeared from the Astor house about three weeks ago. It is feared he has met with an accident or foul play.

A Straight Bolt.

Special dispatch to The Constitution.

NEW YORK, August 11.—The Tammany committee on organization, this afternoon, adopted a resolution declaring that under no circumstances would the democrats of this city vote for Lucius Robinson as candidate for governor.

Another First Bale.

EUFAULA, ALA., August 8.—The first bale of this year's cotton crop was received today. It was raised by Major Wm. N. Reeves, of Quitman county, Ga. Classed middling and sold for 18 cents per pound.

Lucy Hinton Tobacco.

In this issue Tinsley, Bro. & Co., of Macon, advertise the famous Lucy Hinton tobacco, for which they are state agents. Purchasers who wish to deal in this excellent article should read their card.

For Sale.

Special dispatch to The Constitution.

ST. LOUIS, August 11.—The Times' journal, with all its franchises, will be advertised to-morrow to be sold at trustee's sale, Saturday, August 22.

Increasing.

Special dispatch to The Constitution.

LONDON, August 11.—The Standard's Paris correspondent states that a St. Petersburg letter reports an enormous increase in number of the nihilists in Russia.

Dead.

TALCOTT, W. VA., August 11.—Mrs. Wilson, wife of Hon. B. Wilson, member of congress from this state, died at Red Sulphur springs Sunday morning.

FOOD FOR REFLECTION.

PENITENCE is God's own medicine.

DARKNESS, solitude and remorse are a grim and hateful company.

THE test of moral character is not infallibility but recuperative power.

OFTEN a reserve that hides a bitter humiliation seems to be haughtiness.

WITHOUT contentment there is no wealth, and with it there is no poverty.

HE has mastered all things who has combined the useful with the agreeable.

A MAN's good breeding is the best security against other people's ill manners.

BE constant in what is good, but beware of being obstinate in anything that is evil.

SIN produces fear, fear leads to bondage, and bondage makes all our duties irksome.

THERE are three things which nobody can do without—money, buttons and the baker.

ONLY what we have wrought into our characters during life can we take away with us.

WHEN the human mind gets down to hub-deep into a rut of thinking, it is hard to lift it out.

HAPPINESS can be built on virtue alone, and must of necessity have truth for its foundation.

TALENTS are best matured in solitude; character is best formed in the stormy billows of the world.

THE habit of resolving without acting is worse than not resolving at all, inasmuch as it gradually sunders the natural condition between thought and deed.

EVERY man should reap from his occupation as much pleasure as he can, and men in congenial occupations have little need to seek beyond them for amusement.

A MAN sensitive to everything that is beautiful in nature can have more enjoyment in looking up into the sky than witnessing the best plays on the mimic stage.

THE moral restraints of habit are but so many lines at which one stops—with every line obliterated there are the fewer checks in the way of the impetuous man.

THERE is no magnanimity in conscience; it is prone to take us at disadvantage. It always wields its whip of scorpions when the soul is scourged by outward circumstances.

IF you were as willing to be pleasant and as anxious to please in your own home as you are in the company of your neighbors, you would have the happiest home in the world.

FALLING LIKE LEAVES.

THIRTY-FOUR NEW CASES A DAY.

The Mortality of Two Days in Memphis—Discouraging all Public Meetings—Outbreaks Reported at Several Points—A Quarantine Covention in Cairo.

MEMPHIS, August 10.—Twenty-nine cases were reported to-day, 12 white and 17 colored. Among the former were Thomas S. Bateman, Charles Mead, Austin W. Dowell, Arthur White, Dr. Oscar Berty, W. B. Erwin and Carrie Williams. Five deaths have occurred: Fritz Hetsch, Michael Dwyer, Martha Woods Eva Nowland and J. Clements.

Dr. S. H. Collins this morning was sent for from Forest Hill, Tenn., eighteen miles from Memphis on the Memphis and Charleston railroad, where two cases of fever have developed in the family of a Mr. Stout. Dr. Collins will investigate and report what connection their sickness has with the fever here.

Ed. Schloss was prostrated to-day with fever. His case has not been reported, but there is scarcely a doubt as to the nature of his illness. He was active worker during the epidemic last year, but escaped the fever.

Ed. Moon is reported delirious with but faint hopes of his ultimate recovery. W. W. Gay is resting easier to-night, although he had a slight attack of black vomit this morning. The weather has grown warmer. James Schoals was stricken with the fever late this afternoon.

MEMPHIS, TENN., August 11.—Five new cases of yellow fever have been reported to the board of health this morning. Four deaths have occurred since last night—Robert Hillander, Lizzie Dalan, Rev. J. H. Ridley, and a colored infant. Rev. J. H. Ridley was the colored pastor of Collins's chapel on Washington street. Ed. Moon was still alive at noon. W. W. Gay rested well last night, and is reported better this morning. A telegram received from authentic sources positively denies the report that there has been one case of fever at Mayersville, Mississippi.

Thirty-four cases in all—20 whites and 14 colored—were reported to-day. Among them are J. T. Hastings, Ed. Schloss, Wm. Costello, Henry W. Johnson and Joanna Ostmann. Two additional deaths have occurred—both colored. At a meeting of the executive committee this afternoon, a committee of three was appointed to confer with the various ministers regarding the propriety of closing the churches and discouraging any large public assemblages which are calculated to spread yellow fever. Dr. S. H. Collins, who had been sent to Forrest Hill to investigate the cases of fever at that point returned to-day and reports one person, a refugee from Memphis, down with the fever. Every precaution has been taken to prevent its spreading by isolating the dwelling. Major Gay's condition to-night is extremely critical. He had black vomit this afternoon. Ed Moon is better. Miles Owen shows no improvement. A. G. Reynolds, a letter carrier, and Paul Ross, a check boy in the Western Union telegraph office, were stricken this evening. The thermometer to-day marked 82.

Memphis Appeal.

The board of health does not take cognizance of the yellow fever cases or deaths occurring outside the city limits. The state board of health, through its representative in this city, Hon. John Johnson, has issued an order quarantining Memphis against persons who never had yellow fever or those acclimated persons who are not able to provide for themselves. This order has been countersigned by President Porter, of the city government; who has instructed the police force to arrest all such persons arriving in our city by river or rail. This order, if rigidly enforced, will prevent new material for fever from coming to Memphis. The prospect is rather gloomy, but those that are here should make every effort to stamp out the plague whenever and wherever it appears. Let the good fight be kept up, and if we get down, let us do so with our colors flying at the masthead.

WASHINGTON, August 11.—Dr. Billings, vice-president of the national board of health, telegraphed Dr. Jerome Cochrane at Memphis, to-day, as follows: Your advice in the associated press dispatches is noted. This board has, from the commencement, urged the same advice through Dr. Mitchell, and has furnished the funds to carry it out and do the work. The state board has the legal authority. This board can only give advice and means and this it has done. When the state board needs more means it will doubtless inform us. Continue to urge the removal of unacclimated people to the camps and also the isolation of infected persons and places. Advise directly with agents of the state and local boards to save time, as was done by Dr. Mitchell.

NEW YORK, August 11.—There are now no cases of yellow fever either at the upper or lower quarantine.

Decker & Co., billiard table manufacturers, suspended payment yesterday. Liabilities, $39,000.

CAIRO, August 11.—The quarantine inspection boat Vanzandt was to-day anchored in the Mississippi near the head of island No. 1, and hereafter all up steamboats will be inspected there in accordance with the rules of the national board of health. The inspecting officer is instructed in case any steamer refuses to submit to inspection to telegraph the fact to the station above in order to prevent landing.

ST. LOUIS, August 11.—A number of Memphis refugees held a meeting at the Lindell hotel this afternoon in response to a circular received here from the committee of safety in Memphis, asking for aid in supporting the poor people of that city during the prevalence of yellow fever. $1,555 were subscribed on the spot by nineteen business firms, and donations will be solicited of every Memphis man in the city.

CALCUTTA, August 11.—Up to August 6th there had been 75 cases of cholera among the Europeans at Condar, of which number 60 cases were fatal.

ST. LOUIS, August 11.—Mrs. Boland, of Memphis, who has been here about three weeks, was taken with the fever two days ago, and with her two children has been sent to the quarantine hospital as a suspicious case.

HAVANA, August 11.—There were ninety-three deaths from yellow fever in this city last week, being a decrease of forty from the previous week.

NASHVILLE, August 11.—President Plunkett, of the sanitary council of the Mississippi valley, says the executive committee of that association will meet the members of the national board of health at Cairo next Friday and take into consideration such precautionary measures as will prevent the spread of the yellow fever outside of Memphis.

CHICAGO, August 11.—James C. Clark, manager of the Illinois Central railroad, has sent a circular to the managers of the Southern railroad and roads leading from and to southern states, suggesting a meeting, in November, to adopt measures looking to a more reasonable and intelligent quarantine regulation to be established by an act of congress in accordance with the suggestion offered by such convention.

LOUISVILLE, August 11.—A case of yellow fever was reported to the health officer today. The victim was a young doctor named Edward Mormen, who was immediately taken to the yellow fever hospital. Mormen has traveled through infected districts and about ten days ago came up from Brandenbery on a river packet. The attack is not very violent, and the probabilities are that he will recover.

A Violent Storm.

Special dispatch to The Constitution.

MILWAUKEE, August 11.—A very violent storm passed over Madison and vicinity last night. Two pleasure steamers, with full loads of passengers, were wrecked on lake Monona, but no lives were lost. The tobacco crops are reported to be utterly destroyed by hail, and great damage is done to corn.

MR. AND MRS. MARTIN DEFOOR.

THE COLORED ODD FELLOWS.

The Events of Their Celebration Yesterday.

Yesterday was a grand occasion with the colored Odd Fellows of Atlanta. The event referred to was the celebration of the sixth anniversary of Pride of Georgia lodge No. 1,553, of Atlanta. The streets were filled with members of visiting lodges, some of which arrived Saturday, and the others Sunday and yesterday. The celebration did not assume any shape until the afternoon, when a grand street parade took place.

At two o'clock the procession was formed in line in front of the hall of Pride of Georgia lodge on Peachtree street, with J. E. Peck, chief marshal of the day, assisted by Howard Garner, of St. James lodge, and Lewis H. Corgile, of Star of the South lodge.

ORDER OF PROCESSION.

1. Marshals.
2. 13th Infantry band.
3. St. James's lodge of Atlanta, No. 1455.
4. Star of the South lodge, No. 1456, of Atlanta, Ga.
5. Rising Star lodge, No. 15040, Marietta.
6. St. Michael's lodge, No. 1632, of Macon.
7. Myrtle lodge No. 1663, of Savannah.
8. Rising Star lodge No. 1655, of Charlotte, N. C.
9. New Hope lodge, of Charlotte, N. C.
10. Southern Enterprise lodge, of Spartanburg, S. C.
11. Pride of Georgia lodge No. 1553, of Atlanta.
12. Perry lodge, of Perry, Ga.
13. Past Noble Fathers of above lodges.
14. Pride of Georgia's Gaily Joe.
15. Orator and Master of Ceremonies.

As soon as the line was formed, the procession moved off to the music of the band.

The line of march was as follows:

Up Walton to Broad, down Broad to Mitchell, down Mitchell to Whitehall, up Whitehall to Alabama, down Alabama to Loyd, up Loyd to Wall, up Wall to Pryor, up Pryor to Decatur, thence to the capitol, where the address was delivered. After which the procession again formed and marched up Forsyth to Peachtree, down Peachtree to hall, where it was disbanded.

The procession presented a very handsome appearance, the members of each of the lodges in the line wearing their regalias. The sidewalks and the stores along the line of march were crowded with a large concourse of people, who had turned out to witness the parade, which was perhaps the finest display of its character ever witnessed in this city.

After the procession had disbanded the members of all of the lodges, accompanied by their friends, proceeded to the hall of the house of representatives at the capitol, where a number of interesting addresses were made upon the subject of Odd Fellows and the good to be derived by becoming an Odd Fellow. The hall was well filled and the address was attentively listened to. In the evening two banquets were given to the visiting lodges. One of them was held at James' hall and the other at Merchant & Mosely's hall, on Alabama street, near the corner of Loyd. Each of these entertainments were well attended and every feature passed off in a most happy manner.

The committee of arrangements of the festivities of the day are deserving of much praise for the admirable manner in which every feature was arranged and put through. The committee was as follows: Robert Steele, chairman; George W. Pitts, Albert Hill, Philip Joseph, T. E. Askew, W. D. Huggins, M. P. Pitts, J. A. Ketchins, George W. Tate, S. L. Ware, William Gaulford, Samuel Johnson, J. E. Peck, J. M. Mitchell, J. C. Huggins, S. L. Reynolds.

Some of the visiting lodges will return home to-day, while others will remain over until to-morrow.

We learn that the visiting lodges numbered about three hundred members who, with their friends, seemed to enjoy their visit and appeared to be favorably impressed with Atlanta and her people.

The Colquitt Blues.

According to an announcement which appeared in THE CONSTITUTION a few days since the Colquitt Blues of Savannah, commanded by Captain William DeLyon, and a delegation of the Macon Lincoln Guards, reached this city yesterday morning from Savannah. The men presented quite a handsome appearance as they stepped from the train dressed in their flashy uniforms. Captain Bentley's company met them at the train and escorted them to the armory of that company where they were appropriately entertained.

Yesterday morning the visiting companies, with Captain Bentley's company, spent their time at Oglethorpe park, where an exhibition was given in the presence of a fine crowd. Yesterday afternoon the companies paraded through the principal streets of the city, and attracted much favorable comment. Last night the visiting military were entertained by the military of Atlanta, and to-day the companies will parade again. The companies will return to Savannah Wednesday.

The Odd-Fellows Meeting.

The delegates from the various lodges of the I. O. O. F. of this state are arriving by every train to attend the annual session, which commences with the meeting of the R. W. grand encampment at Odd-Fellows hall this morning.

The Grand Lodge will convene to-morrow, when the formal reception will take place and the largest attendance will be witnessed. Members from Savannah, Augusta, Macon, Columbus and other points are already here.

The addresses of Mayor Calhoun, Colonel L. J. Glenn and Grand Master Brandt will be delivered at new Concord a hall at eight o'clock to-morrow morning, and the general public will have an opportunity of hearing them.

Steamship Meeting at White Sulphur Springs.

Many railroad magnates are now tending in the direction of White Sulphur Springs, Virginia, to be present at a great steamship meeting shortly to convene there. Within the last few days William Rogers, general superintendent Central railroad, W. J. Rauol, superintendent Southwestern railroad, Virgil Powers, general commissioner Southern railroad and steamship company, and Colonel Foreacre, superintendent of the Air-Line, have all gone on to the White Sulphur Springs.

A Starving People.

LONDON, August 11.—A Rio Janeiro dispatch, via Lisbon, says that a telegram from Para, Brazil, dated July 21, states that 14,000 distressed inhabitants of Para had revolted in consequence of the stoppage of supplies for their relief. There was much alarm in Para. As it was feared the town might be sacked, the militia had been called out.

The Consecration of a Catholic Bishop

HARTFORD, CONN., August 11.—Rev. Dr. Lawrence McMahon was consecrated bishop of the Hartford diocese yesterday in St. Joseph's cathedral by Archbishop Williams, of Boston, in the presence of 150 priests and many bishops. The music was exceptionally fine, and there was an immense number of people present. Excursion trains are running from all parts of the state.

The Cotton Men.

WASHINGTON, August 11.—A delegation of the New Orleans cotton exchange, headed by Colonel Miller Owen, called on the president this afternoon to pay their respects. The delegation is en route to Saratoga where the cotton exchange congress is to be held.

A Four-Oared Race.

MONTREAL, August 11.—In the Lachine regatta four-oared race for the amateur championship of the dominion and challenge cup was won by Argonauts, of Toronto, rowing three miles in twenty minutes, defeating the crews from Lachine, Peterboro and Toronto.

GRIFFIN ADRIFT.

Floods of Rain and Peals of Thunder—The Criminal Doings of the City.

GRIFFIN, August 11.—Saturday afternoon about 4 o'clock, a jet black cloud came up from the northwest, overspreading everything with a dark and sombre hue. When it had reached full midway over the city, a perfect torrent of rain commenced to fall, accompanied by a very hurricane of wind. People commenced to imagine a tornado had struck us, and more than one Griffinite, I imagine, prepared himself for the cellar. Fortunately, however, no material damage was done. During the prevalence of the gale there was a heavy display of electricity, and thunder rolled in the most deafening peals. About half a mile from the telegraph office, south, a bolt of lightning came down and shattered into splinters five telegraph poles, laying the wire along the ground for several hundred yards. At the time the poles were struck a large crowd was congregated in the post-office, and nearly every one of them felt the shock—some quite seriously. The report was in three distinct and sharp cracks, like the firing of a pistol, the flash being bright enough to almost blind one. It is useless to say the crowd "bolted" at once. The recent heavy rains have proven more disastrous in some localities than has been reported. Towaliga river was higher in some places than has been known for years, overflowing and badly damaging crops and carrying away the bridge between Griffin and Jackson. Flint river also was swollen into a wild, rushing torrent, enough so to sweep away a number of valuable bridges, as I learn from gentlemen who have come in from that direction.

The rains continue and prospects for a fine cotton crop are not yet doubtful. The plant is growing rapidly and forming, but I understand it is not blooming as well as we would like to see it. A bit of continued sunshine now will bring out the blooms.

Senator Grantland, who has been quite ill for several days, is improving.

The Fears case, mentioned in a former dispatch, did not come off this week as was expected, but was postponed until next Tuesday.

All of Griffin was disappointed at not being able to hear "Our Ben" turn loose his thunder and eloquence against the Central—not that we have anything against Lord Wadley at all, but we have a kind of hankering after Mr. Hill in anything he touches. He will have a packed court-house next week to listen to his speech. No one is persuaded otherwise than that the road will again have a verdict against it.

Two or three years ago, some parties from Mississippi came to Griffin to sell territory on a patent cotton planter. Soon after reaching here, they succeeded in making a fine trade for themselves by getting Mr. G. W. Barrow to invest several thousand dollars in the machine, Barrow paid $1,000 cash and gave two notes of $1,500 each for balance payment on several state rights for the planter, the notes to be paid when the money was realized on the sale of the patent. It failed to prove anything but a first-class humbug, however; so Barrow brought suit to recover his notes and the $1,000 cash paid to the Mississippians, and a verdict was given day before yesterday in his favor. The case was decided against him at a former court.

Nothing is disturbing the serenity of our social sky at present but the presence of a large number of visitors, and Judge Buchanan's court. Strangers and law are the topics we discuss, and a glance at our docket would convince any one that we are not "strangers to the law." There are only five murder cases recorded, to be called, but not a single one of the accused are in limbo. Hence we are without a sensation at this court, except, as I say, the anticipated firing up of Hon. B. H. Hill.

A BIG EXCURSION.

Columbus Pours Her Citizens Into Our Midst.

One of the largest excursions that ever came to Atlanta reached this city yesterday from Columbus. The excursion came by a special train of eight coaches, four of which were filled with white people and four with colored. The excursion was gotten up by Washington fire company No. 2. This company consisting of about thirty men, commanded by Lewis Thompson, was on board. Champion fire company No. 1, commanded by John Bell, was also with the excurson, and numbered about twenty-five men. Each of these companies had with them their engines. The visiting firemen were met at the depot by Blue Eagle No. 6, of Atlanta, and escorted to the engine house of that company.

On board the train was the "Fox Hunters" base-ball club, of Columbus. Two Atlanta clubs had a game yesterday which resulted in a score of 10 to 26 in favor of the champions. The Fox Hunters will tackle the champions Wednesday morning. This afternoon the Columbus fire company and Blue Eagle fire company, of Atlanta, will have a parade, commencing at 3 o'clock.

After the parade the engines will have a contest of throwing streams of water. The Blue Eagles will use one of the Columbus engines, and the display will take place in front of the capitol directly after the parade. The excursion brought with it quite a number of the most prominent citizens of Columbus, who are quartered at our hotels and seem to be enjoying themselves. The excursion will return home Wednesday.

LETTER FROM MRS. POTTS.

She Wants Help From Atlanta.

Yesterday a reporter of THE CONSTITUTION received from Mrs. Mattie Potts, the pedestrian, the following letter, evidently intended for the public eye:

MCGEE'S SWITCH, 100 miles below Montgomery, August 9.—DEAR SIR: I expect to reach Atlanta next Friday. I want the gentlemen of Atlanta who have won so much money on my down trip to New Orleans and back, to please be kind enough to hand me over a few dollars of my winning money. I worked hard for them to make that money, while they have made it very easily. I am without money, and a few dollars will be very acceptible, for I am in need of clothes and have no money to buy them with. It is very likely that I will remain in Atlanta a day, and I hope my friends will do what they can for me.

Yours respectfully, MRS. MATTIE POTTS,
Pedestrian.

The Heavy Rains.

RALEIGH, August 11.—The recent heavy rains have saved the tobacco crop in this section. Reports to the Raleigh News indicate that the yield will be within 20 per cent. of last year's crop. Durham, North Carolina, the great tobacco center of the state, is doubling its business in leaf tobacco, W. T. Blackwell & Co. commenced work to-day on the large addition to their immense brick factory. It will be the largest in the United States. They manufactured over 700,000 pounds of smoking tobacco during the month of May.

Governor Brown's Party.

CHARLOTTEVILLE, VA., August 11.—A special train having on board Governor Brown, of Georgia, and a party of ladies and gentlemen from that state and Texas, reached here yesterday. After visiting Montecello, the university and other places of interest, they left to-day for White Sulphur springs.

The Pennsylvania Dry.

PHILADELPHIA, August 11.—A call is issued to-day for a prohibition state convention at Altoona, September 9th. It is expected that a state ticket will be nominated and an address issued.

His Last Paragraph.

Special dispatch to The Constitution.

PORTSMOUTH, August 11.—John Scribner, of New York, author of several books, died at New Castle yesterday morning. He was 53 years of age.

THE DRIPPING AXE

AND THE TERRIBLE TALE IT TELLS.

The Latest Details of the Terrible Tragedy Near Iceville—Theories in the Case—The Strange Conduct of Asa Gunn—The Division of the Old People's Property.

We present to-day an excellent likeness of Martin Defoor and his wife who were murdered in their bed six miles from Atlanta on the Iceville road. The old man was seventy-six years of age—the old woman seventy-nine. They had lived for thirty years beneath the roof where they were murdered, and during all that time had enjoyed the confidence and esteem of all who knew them. Indeed they were most exemplary Christians and inoffensive in the last degree. It seems hard that these old people after having lived so long and so uprightly—after having accumulated by honest toil a sufficiency of the world's goods to maintain them comfortably in their old age—it seems very hard indeed that they should have been made the victims of the most terrible tragedy known to the annals of Fulton county. They were the last persons in the world from whom violence could be expected, and hence the last persons upon whom violence should have spent itself. And yet a cool, deliberate, damnable murder ushered them into another world—a murder so horrid in the plan and so savage and brutal in the execution that the stoutest heart cannot contemplate it unmoved. The day after the crime THE CONSTITUTION gave the full particulars, detailing with unusual minuteness the circumstances, the appearance of things in the house, around the house, and throughout the entire premises.

One week after the crime the only valuables missed—the notes and the money—were found in an old-fashioned pitcher upon a table in the corner of the very room in which the deed had been done. Scouting parties scoured the country in every direction. Every mind in the community was excited, and every eye was strained. Rewards were offered by the relatives of the deceased and by the governor—the whole police, for a time, seemed to have dedicated themselves to the search for the perpetrators of this crime, without the shadow of a palliation or the semblance of a parallel in the history of Georgia. Many arrests were made, but the negroes, upon showing their whereabouts upon the night of the crime, were promptly and justly released. Theory ran wild, and fact seemed lost forever in the mists of mystery. Suspicion ran riot, and was just in the act of pointing its trembling finger at the kinsman of the deceased, when sympathy shielded him with her hallowed wing. And then Asa Gunn was brought, with his wonderful confession, inculpating a white man and another negro. Thorough search was made for these persons in the county from which Asa said they sprang, but no such men were to be found. And then Asa denied all knowledge of the killing, saying that the bite from the dog, the blows from the spade, and the horrible threats of his captors had frightened him into a confession, the words of which were not his words, but had been put into his mouth by men believing in his guilt and hungry for his conviction. And then Asa was carried out to the scene of the tragedy, and it was thought by many excellent men that the things which he pointed out and the answers which he gave forever fixed him as the guilty man, and the only guilty man in connection with the whole affair. But a quiet, collected gentleman who went out with him said that Asa was again threatened and prompted and so intimidated by the crowd which was present, that he told a medley of lies which would have awakened the envy of Munchausen and kindled the admiration of Perkins. And the public said that Asa had been shamefully treated and should be released because he has confessed under duress, and it didn't believe in confession anyhow. And the men who took Asa out—that is, some of them—said he is undoubtedly the man, and the only man, and shall surely die. And they led him back to jail where he is still confessing and denying, and lying, and re-lying, and lying yet again.

But the stern facts printed by THE CONSTITUTION in its first elaborate review still remain.

The murderer was perfectly familiar with the habits of the old people and the premises.

The murder was not committed for the purpose of burglary. The money was left. The murder was not committed from a motive of revenge. The old people had no enemies. The murder was the result of a deep plan. An active brain laid it. The murder may have been done for "hire and salary." Why not? The murderer may have been playing for futures. Why not?

The motive for the murder is shrouded in the deepest mystery!

ADDITIONAL PARTICULARS.

Yesterday Asa Gunn was carried before Justice Tanner for trial. He waived an examination and went back to jail. He says that he can prove an alibi—that an old negro man who lives six miles beyond the Chattahoochee will swear that he spent that terrible Friday night under his roof.

Bill Jones, detective, left on on the West Point train yesterday for Alabama. He took with him a requisition from Governor Colquitt upon the governor of Alabama for a man whom he is confident is the right one.

From the ordinary we learn that the Defoor property has been divided among the heirs. The property amounted to about $6,000. There were four heirs: Mrs. Walker, Mrs Leonhardt, daughters of Mr. Defoor; and J. W. Moore, son of Mr. Tom Moore, and T. H. Jeffreys. The dwelling went to Mrs. Walker. We learn that it was sold by her to Mr. Moore last week and has been torn down by that gentleman, who proposes to use the lumber in erecting a barn upon his place.

Each heir received $1,500—one-fourth of the property. Mr. T. H. Jeffreys took as his share the notes and money, amounting to about that sum, with the understanding that the amount of these notes which cannot be collected shall be made up to him by the other heirs from the whole property—each taking his or her pro rata upon a redivision of the whole.

Detective Jones's Theory.

The theories upon the subject of the Defoor murder are by no means exhausted. There are no less than a half dozen detectives working out a half dozen separate theories, arising from their several combinations of the signs and clues surrounding the mysterious tragedy. One of these still-hunts has about reached its climax and prompt action been taken to test the accuracy of the conclusions reached.

A MOLE COMES TO THE SURFACE.

Since the commission of the dastardly crime, Detective Bill Jones, one of the very sharpest, shrewdest and most successful men in the southern field of the profession, has been silently and industriously following a trail indicated to his mind as likely to bring him to the correct solution of the enigma. It is safe to say that not a shade of the case has escaped his scrutiny and that every feature for and against his theory has been duly weighed and considered. Still he is confident that he has made no mistake. If he has erred, it is an exceptional mishap to his usually correct judgment.

Yesterday he came into the capitol to perfect his arrangements to

MANACLE THE MURDERER.

An affidavit was sworn out by Mr. James M. Moore, one of the relatives of the Defoors, charging, to the best of his information and belief, that a certain negro was the murderer of the aged and unfortunate couple. Upon the basis of this affidavit, the governor issued a requisition upon the governor of Alabama for the negro in question and constituted Detective Jones as the agent of the state to take him into custody and return him to this county. Mr. Jones left yesterday afternoon for Montgomery, with the necessary papers to secure the warrant of extradition, and expects to return to the city on Saturday morning, bringing with him the real criminal.

THE CONVINCING CLUES

which have sufficed in the mind of the detective for the action thus taken are many and peculiarly interesting, but at this stage of the proceedings we can merely indicate the salient points.

The negro who is now accused is one who was about the neighborhood of the Defoor locality for more than a month prior to the commission of the crime. He had a thorough knowledge from observation and hearsay of the habits and characteristics of the old people. He had been to and was familiar with the house and its surroundings. He was a shiftless and reckless negro in all respects.

The detective claims to be able to locate this fellow near or

AT THE HOUSE AT MIDNIGHT

of the night of the murder. His whereabouts have been traced and his wanderings followed until it is almost an impossibility for him to have been at any other place at that hour. This is arrived at, as we understand it, from his appearances just before and subsequent to the time when the killing should have occurred.

The murder, it is alleged, was not committed in the way it has been heretofore supposed. The axe with which the deed was supposed to have been done, is an old, dull and gapped instrument and shows but one or two indications of blood, which possibly was the blood of a chicken killed the night before. That the assassin should have stopped after murdering two persons to destroy the evidences of his crime upon the ax blade by rubbing it in ashes, is considered a very absurd and unusual action for a murderer. What use to rub out the blood on the ax when there were horrible gashes left in the necks of the aged pair that no power on earth could rub out or obliterate? The murder, it is claimed, was done with

A HEAVY DIRK OR BOWIE KNIFE.

The cuts were clean and smooth, severing arteries, muscles and vertebræ. In the case of the old man they went through the cloth of his shirt-collar. An axe, and such an axe as that described, could not have made such gashes, or such a cut. It is said that it would have been difficult to have so cut the necks of these people with the sharpest of axes, while they lay upon yielding pillows and a springy bed.

The negro who is under the present accusation is known to have

HAD SUCH A KNIFE,

with a long, heavy blade, like a butcher's knife. He exhibited it from his person the day before the murder and threatened with it to chop in two a dog that had made a feint to attack him.

The fact that the negro and his wife disappeared from the vicinity almost immediately upon the discovery of the murder added another link to the chain that Detective Jones was putting together.

After careful hunting and inquiry he found a negro man to whom this party, the day after the murder,

PAID A DOLLAR AND A HALF

in dimes and nickels, such as were missed from the pockets of the old man Defoor. This money was paid to the negro on consideration that should he be questioned about the other one he was to say that the payer and his wife had stayed all night with him in his house. The fact is that the negro did not stay, nor did his wife, but came early next morning.

Still another one of the strong indications of the guilt of this party is the fact, as stated, that his wife, in her exile with him,

IS WEARING MRS. DEFOOR'S SHAWL,

which was taken from the house on the night of the murder and was not missed until subsequently. This is said to be an indubitable fact and is considered a clinching piece of evidence against the accused.

The negro, when found, was more than a hundred miles away in Alabama and, as he suspected, safe from all suspicion or pursuit. He has been run down, however, and will be brought back to explain these damaging facts appearing against him. It is a matter of curious speculation in all these theories to fix

A MOTIVE FOR THE CRIME,

since mere robbery does not appear to have been the chief incentive. Indeed there appears to have been considerable pains taken by the murderer to leave behind the evidence that he was not killing for the money results to be obtained then and there. The detective feels assured that in the capture of the party he is after he has also taken that which will unlock the deep mystery. Until his return there will be keen curiosity to know the result.

THE FIRE FIEND.

The Sunday Night Flame on Marietta Street.

Shortly after nine o'clock last night an alarm of fire was sounded by some person on Marietta street. The fire department, upon responding to the call, discovered that the building of W. J. Keeling, on Marietta street, was on fire. Water was soon procured, and the flames extinguished. The building was used by Mr. Keeling as a bakery. The entire inside of the building was burned out. The fire is supposed to have originated from a spark from a bake oven in the rear of the building. Nearly all of the stock and furniture was saved, although in a partially imperfect condition. The building, we learn, was not insured. The stock and furniture was insured in Merchants and Mechanics fire insurance company, represented by Messrs. Walker, Boyd & Whitner, for the sum of $350. Yesterday the insurance agents were busily engaged estimating the loss, which is estimated to be about six hundred dollars. The damage to the building will be repaired at once, and as soon as the loss is adjusted workmen will be put to work upon the building. But for the continued energies of the firemen the buildings on either side of the bakery would have been a total loss, as they are built of wood.

COME INTO COURT.

THE DEMAND UPON W. L. GOLDSMITH

The Public Interest in the Pending Impeachment—Looking for Documents—The Work of the Committee Completed—The Articles to be Preferred to-day.

The preliminary proceedings in the matter of the Goldsmith impeachment are steadily progressing and coming to a conclusion. The real work of the grave trial will not be much longer postponed. There is great anxiety in the public mind all over the state to keep posted upon every detail of the proceedings from their inception to the end, and members of the general assembly are being beseiged for

"ALL THE DOCUMENTS"

thus far printed and relating to the affairs of the comptroller-general. When it is remembered that within three generations past an impeachment of a state official has never been a fact in our public history the novelty and gravity of the matter in the eyes of the people can be easily imagined. There is not a line or item of these proceedings for which the public will not be clamorous, and the demand will have to be satisfied, even should the public press prove inadequate to the task. For the benefit of inquirers at this office and of the members themselves we may mention that beyond a few copies of the reports in back numbers of THE CONSTITUTION all these documents are already out of print and inaccessible. It is truly the early subscriber who catches the wriggling newsworm these days.

THE IMPEACHMENT ARTICLES

will probably be reported to the house of representatives from the judiciary committee to-day. A sub-committee was given them in charge and each committeeman assigned the drafting of the several articles and specifications under a certain class of alleged illegal and wrongful acts. These labors have now been completed, and to-day the full articles will be presented, it is thought. They will be in true and formal legal shape, and constitute a very firm and ample indictment against the comptroller-general. To formulate these complicated transactions into clear and specific articles has been no holiday task.

MORE AND MORE CHARGES.

The committee will report more articles of impeachment than the special committee reported in the shape of charges. In several instances an article reported as a finding by the special committee, when investigated and analyzed by the judiciary committee, has been found to embrace several violations of law, and therefore constitute several specific offenses. Each of these had then to be formulated into a charge. In other instances the testimony disclosed offenses that the special committee had not chosen to reduce to the shape of charges, and upon some of these the judiciary committee have founded articles of impeachment. In perhaps two or three instances the committee have decided to ignore as impeachable the alleged offenses specified by the special committee. So it is that the articles to be reported will in fact be more numerous than those reported by the special committee, and will contain allegations not formulated by it, as well as omit others that were specifically made and denominated offenses demanding impeachment. By this means it is not improbable that the articles to be reported will prove as much a surprise as the charges made by the "thirteen."

THE HIGH COURT

will be promptly organized as soon as the house is ready to exhibit its articles of impeachment.

Chief Justice Warner is prepared and ready to take his seat and preside over the senate when organized in that capacity.

The senators are as reticent as oysters upon all points involved in this affair, and are preserving a demeanor that is most admirable. It is proper that they be calm and unhampered in the trial and there is not one among them who will not preserve himself in this attitude. To all intents and purposes they are even now sworn jurors in the case.

When the articles are exhibited in the senate and that body, as a court, takes order for their service upon the respondent, he is considered as under arrest, but this is a technical affair in nearly all instances, and in the present case the comptroller will be under arrest by the barest shade of the term's significance.

As to whether he will be suspended from the exercise of the functions of his office, is yet a mooted question. There are precedents for and against suspension, and it will doubtless be a matter for the general assembly to determine. If so, there can be nothing conjectured now as to what action it will take.

PREPARED FOR THE CONTEST.

Colonel Goldsmith has been treated with extreme consideration in the midst of his troubles. The press has very generously refused to discuss the questions involved in the impeachment and the people have pronounced wise and adopted the like course. Colonel Goldsmith was, at first, much depressed and worried over the situation, but has regained somewhat of his buoyancy and is earnestly preparing to fairly and fully meet the issues and combat them. He and his attorneys feel confident of their ability to show the truth of the transactions in his department in a way to satisfy the court and the people that even if errors were made there was no crime committed.

THE HOUSE MANAGERS

are actively engaged in preparing and digesting the case as far as it has developed, and when fully advised of the case they have to sustain will rapidly put themselves in trim to prosecute it with that zeal and energy which is proper and still by no means vindictive. The managers are an able body of men and may be relied upon for a conscientious and patriotic discharge of the onerous and by no means pleasant duty put upon them.

A WILD HUNT FOR CASES

has characrerized the two sides of the affair since it's inception. Impeachment being a new and foreign proceeding to the usual run of the attorneys in general, they have had to rake and scrape everything in the books that was accessible and that bore upon impeachment proceedings. College sophomores, before an impending examination, never excelled the avidity and haste shown in the "cramming" proceedings of the past two weeks. Andy Johnson's case has been in demand and a high premium could be had for a loan of the volumes over night. The Belknap case was next in demand, and then other random cases wherever found were seized upon and devoured. Impeachment lore will be ready to ooze from everybody before the trial is well begun.

STILL ON THE TRAIL.

The special committee of thirteen has not yet been discharged from its appointment, and meets to-day at 9:30 o'clock to consider some other matters within the scope of its powers. A new batch of subpœnas was issued yesterday and the probabilities are that new developments may lead to new charges. These charges, however, will be upon the transactions of the wild land office and touch upon matters of which the public is already advised. They will hardly be of a startling, but rather of a cumulative character.

THE OTHER INVESTIGATORS.

The four special committees to investigate the treasury, agricultural, penitentiary and state school departments, are organizing and getting ready to dive into the labors assigned them. It is difficult at this writing to make any definite statement of the expected developments in any of these investigations. We do not hear from any of the committeemen any definite statement of the points they propose to drive at. Generally speaking they are to say what they may find, either that there is a wrong here or there, or that all is strictly O. K.

THOSE NEWSPAPER CHECKS.

In a recent issue of the Columbus Times, the following appeared in company with the query as to whether the Atlanta press had been tampered with:

"The correspondent of the Augusta Evening News, writing of matters and things at the capital, says that certain newspaper men of Atlanta and elsewhere are thrown into a flurry by the production before the committee of Goldsmith's checks, made payable to them. Some of the Atlanta innocents hurriedly applied to the committee for the privilege of appearing before them and explaining the nature of the transactions of which the checks were evidences. But the committee thought they would not need the additional light, and went on with their work."

The facts with regard to the above, as we learn them, are as follows: During the sitting of the committee, Mr. Patton cashier of the Georgia banking and trust company, was required to produce to the committee the checks drawn by Mr. Goldsmith during July and paid by the bank. He produced some seventeen checks. One of these was used in evidence and appeared in the printed testimony. The others the committee did not care to consider or question. Among those was a check in favor of M. E. Thornton for $50, drawn on July 14th, and one in favor of P. F. Lawshe for $100, drawn July 8th. Mr. Thoruton is the correspondent of the Augusta Evening News; Mr. Lawshe, the editor and proprietor of the Gainesville Southron. They were the only newspaper men in whose favor checks were shown. In both cases it was understood that the checks were passed in regular transactions. Mr. Thornton says he borrowed the money from Colonel Goldsmith and it was given in the check. In the case of Mr. Lawshe it was understood that the check was in payment of regular claims upon Mr. Goldsmith, that are in no wise obnoxious to the fullest and freest scrutiny.

Mr. Thornton, when he learned that the check paid him had been shown, addressed the committee a note asking to be heard as to the transaction, but the committee deemed the matter of no moment in their investigation. This is the plain history of the flurry and the hurried application to explain. It will be seen that there were no "newspaper men of Atlanta" involved in these simple and harmless proceedings, and it woul have been no grand bug-a-boo if they had been,

PUBLISHED DAILY EXCEPT MONDAYS

THE CONSTITUTION BUILDING,
ATLANTA.

DELIVERED in the city of Atlanta for One Dollar per month.

MAIL SUBSCRIBERS, postage free, $10.00 a year, or $1.00 a month.

THE DAILY edition contains fuller and fresher intelligence from all parts of the world than any other Georgia paper. Its news columns and correspondence are the most varied and its telegraphic service the most complete. Its circulation extends all over Georgia and into neighboring states, and its editorial opinions and comments are more widely quoted than any other southern newspaper.

CORRESPONDENCE containing important news solicited from any part of the country.

THE WEEKLY CONSTITUTION.

Four pages, thirty-six long columns—Published every Tuesday morning.

TERMS PER ANNUM, postage free, one copy $1.50; six months, $1.00; ten copies one year, $12.50; twenty copies, $20.00.

THE CIRCULATION OF THE WEEKLY CONSTITUTION will compare more than favorably with that of any other weekly in the south. It is the cheapest paper of its class in Georgia, is carefully edited and contains, in compact form, the cream of the Daily. Among its attractions are original stories by the best southern writers, the latest news and market reports, elaborately prepared articles on agricultural matters, timely editorials, comments upon current events, crisp, sparkling and pungent paragraphs, and choice selections in prose and poetry.

AS AN ADVERTISING MEDIUM, THE CONSTITUTION offers, within its field, unrivaled advantages. The Daily edition has many more readers and subscribers in Georgia than any other newspaper, while its aggregate circulation is considerably larger than that of any other daily journal in the state.

The Constitution.

ATLANTA, GA., AUGUST 12, 1879.

THAT eminent republican leader, Smiler Colfax, will enter the campaign this year as a speaker at agricultural fairs. He may be president yet.

THE governor of Kansas opposes the exodus with the full-grown vigor of a man who is afraid he will be called on to contribute something to the cause.

JUDGE SETTLE, of North Carolina, who is mooning about the country beating up the Grant sutlers and bummers, says the south will send a solid Grant delegation to the next national republican convention. The best thing that can be done for this unhappy political vagrant is to be sorry for him.

IN pursuance of his intention to further his political prospects in the south, John Sherman has given Rainey, the colored ex-congressman from South Carolina, a soft position with headquarters in New York; and Rainey, who imagines that he is a leader of his race, is sending out invitations to newspaper men to come and interview him. He is in favor of an exodus and also in favor of John Sherman. This is the sort of work that is amputating the legs of the Grant movement.

THE platform of the republicans of Pennsylvania says that the election of presidential electors is a national election. The patriots who prepared this interesting document had evidently forgotten the decision of the republican electoral commission, which held that such elections were peculiarly state affairs, and that any attempt on the part of the commission to go behind the returns would be a gross violation of the rights of the states. That was Joe Bradley's view.

The Constitution and Its Circulation.

A short time since we published the fact that THE CONSTITUTION'S circulation on Sunday, the 27th of July, was 7,250 copies. These figures provoked considerable comment, and some persons contended that this was an exceptional day, and selected as the best ever done. To disprove this we state that the circulation of THE CONSTITUTION on last Sunday was 7,500 copies. This shows an increase of 250 copies over the issue of the week before, and is simply the ratio of steady and regular increase in our circulation. It may be held that this issue was not bona fide, or that it was swelled by the orders of advertisers for extra copies, but this is not true. Every copy of the 7,500 was printed and sold, and not one single copy was ordered before the forms went to press, and not a copy bought except for the news it contained, as far as we know. It was a quiet day, and there was no especial sensation on hand. If there had been the issue of the paper would have gone over 8,000 copies.

We call attention to these facts, not for self-glorification simply, but to show also the growth of our city, and the returning prosperity of the people. THE CONSTITUTION is an index of the business and condition of the city and the state. Three years ago we published barely 3,000 copies. We have now nearly trebled that business, and our circulation increases daily. It is our firm belief that by the time the campaign of 1880 is fairly opened THE CONSTITUTION will issue its 10,000 papers daily. It shall be our aim to make the paper worthy of this great patronage and deserving the approbation of its readers.

Republican Methods.

Recently the Chicago Tribune, in setting forth the innate goodness of the republican party and the magnanimity with which it had dealt with the southern people, made bold to boast of the relief that had been extended to the yellow fever sufferers last year. Commenting upon this puzzling justaposition of politics and charity, we ventured to ask whether the money thus contributed came from the republican campaign fund or whether it was the result of northern sympathy without regard to party, and we furthermore stated that we would be sorry to learn that political considerations of the sort hinted at by the Chicago Tribune were at the bottom of that great charity. These remarks seem to have nettled the worthy editor of the Tribune, for, under the alarming caption of "yellow "fever and state sovereignty," he proceeds to give a partisan twist to our comments—a twist, it is needless to say, by which they are distorted out of all shape and meaning. As we have had occasion to remark before, Editor Medill, when not amusing, is always puzzling, and in this instance he is both. He resents the idea of any southern democratic newspaper venturing to doubt his intimation that the republican party is at the bottom of and responsible for all the charity that came out of the north last summer, and he is led by this feeling into a very ridiculous attempt to misrepresent THE CONSTITUTION. Explaining that the sympathy and charity of the northern people were not the result of political purposes, and thus substracting all point and meaning from the article upon which we commented in the first place, the Tribune says:

> But the editor of THE ATLANTA CONSTITUTION can't comprehend this feeling, and resents it. He doesn't want any contributions to be made to southern sufferers that are prompted by this sentiment of national relationship. He desires that contributions from Illinois, for instance, shall be sent to the sovereign state of Tennessee, or the sovereign state of Mississippi, from the same common motives of humanity that the people of Kamschatka would contribute under similar circumstances. We are inclined to think that the state-rights democrats of the north made up their contributions on that basis, and it is this conviction which justifies the conclusion that they gave coldly and sparingly, as they would to a missionary to the South Sea islands or Far Cathay.

We have reproduced the foregoing merely as a specimen of the controversial methods of those organs which, by common consent, are understood to be leaders of public opinion at the north. It is not less stupid and meaningless than hundreds of other extracts that might be daily made from the organs of republican thought, but we quote it in preference to others for the reason that our readers have an opportunity of comparing the misrepresentations of the Tribune with the comments upon which they are supposed to be based. Outside of such a comparison the quotation is not worth making, and, in any event, is not worth replying to.

The Prospects in New York.

Editorial Correspondence of The Constitution.

HORNELLSVILLE, N. Y., August 9, 1879.—New York, with its million of voters, embracing at least the usual proportion of both floaters and independants, is, of course, a riddle that cannot be easily solved as Novembers come around. I have talked, however, with greenbackers and workingmen and all kinds of democrats and republicans, getting as near as I could to the people and away from the machine men, and have arrived at certain conclusions. These I offer for what they are worth. They are not "warranted" for anything except as an approximation of what the people desire at this writing. What they may desire, or what the party managers will permit them to have are questions of a different nature.

I assume, however, at the very outset, that Alonzo B. Cornell will be the republican nominee for governor. I do this because it is plain that he will be. The delegates already elected indicate as much, and all the straws confirm it. If he should fail to get a majority of the convention, the nominee will be either State Senator Pomeroy or Judge Robertson; but such a hypothesis is altogether superfluous. Cornell is to be the nominee. I unhesitatingly assert that he will prove a weak candidate. He is a light-weight to begin with, who was born to great wealth, which slipped through his indiscreet fingers, and in politics he has ridden on Conkling's back, never once standing on his feet. He is, however, an active and useful political agent for Mr. Conkling. That is his standing throughout the state and in the eyes of the average man. He has lost his property; he has no business outside of politics; he is a hanger-on of Lord Roscoe. He has never done anything to give him strength of his own, but as a managing politician he knows all the local workers of his wing of the party. Can such a man run well when put on the people? Hardly. No "liberal" will support him, no anti Conkling man. No republican that I have talked with wants to see him put at the head of the ticket. No business man or non-active republican who has acquired a hatred of the machine will support him with enthusiasm, if at all. That depends, however, very much on the nature of the democratic nomination.

I came here hoping that the two wings of the democratic party would be harmonized in the nomination of Clarkson N. Potter, General Sloan, Mr. Beach or some other man whom both Tammany and anti-Tammany would cordially support. I now think that the nominee should be none other than Governor Robinson himself. I find that he is very strong all through the rural sections of the state, and is by no means weak in the cities. He has saved the tax-payers no small amount of money; he has invariably acted up to his conviction in all respects, stopping with his veto power no end of loose legislation and bringing the affairs of the state into excellent condition. If he is pitted against Cornell, I have no doubt he will receive a considerable number of republican votes, and thousands more will secretly wish him success, while they forget to go to the polls. Tammany cannot, of course, attack his record; it simply hates him, because he is a friend of Mr. Tilden. It makes a great deal of noise. I have no desire to underrate the power of Mr. John Kelly and his numerous assistants. They are, however, to the last man, sore-heads, having, perhaps, more skill but scarcely any more popular support than a similar number of disgruntled political strikers would have elsewhere. They will not control the state convention. I hope no terms will be made with them. If Governor Robinson is renominated, as I believe he will be, they will support him because they cannot well do anything else. I have no faith that Kelley can work in New York city any serious injury to the cause, even if he attempts it. The city government is against him, and the men who think that Mr. Tilden would be an uninfluential spectator of the struggle does not understand the energy and vitality, and ambition, and shrewdness of the man.

You have doubtless concluded that I think Goernor Robinson could carry the state against Mr. Cornell. And so he could if the fight were wholly between the two old parties; but that will not be the case. The republicans will see that the greenbackers and the workingmen have tickets in the field. The two conventions are called to meet in Utica during the last week of this month. The third party vote was 75,000 last year; this year it will doubtless be 50,000—four-fifths of which will come from the democratic ranks. Here is the trouble. Can Governor Robinson, who is stronger than any other aspirant, secure a plurality over Cornell after forty thousand democratic votes have gone over to the greenback ticket? This is a question that I cannot answer. It is one that will depend very much upon the size of the alleged Kelly defection, upon the vigor thrown into the canvass, upon the action of the men who care very little about politics and a great deal about good government. It is a complex question, and I think your readers can answer it as satisfactory a thousand miles away as they could on the spot.

F.

WE are to have another new evening paper in Atlanta. All we know of it is the fact that a gentleman who claims to have sufficient means to run a paper called on us to arrange for our evening telegrams furnished by the associated press. He expressed himself entirely satisfied with the price, and said he was backed by a strong company and would be ready to commence the publication of a new evening paper about the 15th of September—filled with the latest news from all quarters.

AS Colonel Charles Byrne, of New York, would remark, the old original Bartlett has tackled your Uncle Lucius Robinson, and now there is bound to be trouble. Neither Citizen Swinton nor Ballard Smith can prevent a catastrophe.

WHEN the esteemed New York World gets its obelisk, we are willing to put it back on our exchange list.

IT is observable that where eleven villains get together in caucus the republican party always has a two-thirds majority.

WHILE the democracy of other states in the union are preparing to go to the country on an issue involving the freedom of elections, it is preposterous that the party or any respectable portion thereof should sympathize with the bulldozers of Yazoo county, Mississippi. If the governor of that state is afraid to put down the organized mob then he should resign in favor of the leaders thereof and give them full charge of affairs.

IN Michigan the other day, a young lady was before the courts for slapping a young man's face. It was a mistrial.

WE frequently read paragraphs in the editorial columns of the New Orleans Picayune in which it is impossible to repose our entire confidence; but in justice to all concerned it should be definitely stated that Mr. Burbank is not a native of Louisiana. It gives us unqualified pleasure to thus be the humble means of setting him right before the public.

THE Detroit Free Press intimates that Lucy Stone has only been before the public twenty years. She is quite a maiden then. Our impression was, however, that she was going to school to Colonel Suey B. Anthony when the French held Detroit. But we are not a journeyman historian.

CONKLING is not altogether without a boom. He could probably carry Rhode Island.

COLONEL JOHN COCKERILL, of the Baltimore Gazette, is still too busy with his new comic opera to discuss with any depth of feeling or elaboration of treatment the results that must follow the importation of polo to the south and the exportation of the tournemong to the north. In our opinion, this movement, gradual as it seems to be, is the only sure and substantial basis of that real reconstruction which must, in the end, bind the two sections of the nation together as with strips of court-plaster.

A MEMBER of the Georgia legislature has discovered that dogs always sleep with their backs to the north pole. We have often observed that they are full of electricity—and fleas.

WHEN John Sherman gets through with his Ohio tour, he will be in a condition to believe that it is better for a man to be the possessor of a carbuncle in full flower than to have a boom thrust upon him. And there are other men in this great republic of ours who will cordially sympathize with Mrs. Jenks's protege.

GEORGIA has no champion walkers, but she manages to get in with the first hops of the season.

THE shooting stars were not loaded. One enthusiastic observer counted twelve during the space of five minutes and then retired. The cats in the back-yard, however, conversed in a very loud tone, as if something unusual was going on.

FOSTER does well to accept Piatt's challenge to a discussion. Piatt is the only candidate Calico Charles can hope to beat.

A COLORED man in New York advertises that he can beat anybody in the universe walking on the frog of his foot. If any of the pedestrians accept the challenge they will be compelled to walk flat-footed. There is no heel and toe business in this.

FOSTER has been telling the colored people of Ohio what the republican party has done for the negro race. Did he tell them what his party had stolen from them? It is to be presumed that in the matter of the freedman's bureau and bank he was discreetly silent.

HOME rule seems to be at its heighth in Mississippi, where one of the towns quarantined against the governor the other day. If the democrats would quarantine against bull-dozing the political health would be improved.

Now that Fanny Davenport is married, Daly will have to get him another leading lady for his company.

IF the editors of the Okolona States have got their secession machine fired up, the rest of the country is ready for steam to be turned on. There need be no delay in yanking the entire state of Mississippi out of the republic. Such of the natives as don't desire to go with her can emigrate to Kansas with Gingercake Conway and depend on the bounty of republican relief committees.

GEORGIA is still pushing ahead. The first bale of this season's crop of hops was grown in Montgomery county. It was received in New York Thursday. Hops are now worth 18 cents a pound.

THE republican relief committees have discovered that there will be a good deal of suffering among the exodusters this winter.

NO tenor singer should live in a glass house. He throws tones.

JOHN SHERMAN'S attempted reply to certain charges in the Glover report was composed and punctuated by Mrs. Jenks.

THERE will be a lively demand for the average Louisiana liar as soon as the campaign opens.

POSTSCRIPT.

UP in Maine the radical party is whooping around like Pilgrims lost in the big woods. Garcelon is going on to victory.

TENNESSEE refuses to settle her debt upon what appears a fair basis. Ten years hence she will be sorry she didn't.

THE house of representatives is a very able body in the killing of bills. The heap of the slain is growing enormous.

EXCURSION tickets to the "Landing of Grant," at San Francisco, are now offered by the bunch and at largely reduced rates.

COLONEL GLOVER and his report trouble the radicals muchly. Mr. McPherson is the latest man to get up and say, "not guilty."

SPOTTED TAIL says he never laughed but once. When he sees Carl Schurz's legs dodging each other under the belly of an Indian pony Spotty will be forced to guffaw.

THE latest rumor is that Zach Chandler retreated to Canada with Sitting Bull. He is probably studying tactics for the next winter's campaign.

JEFF DAVIS is still at Beauvoir. The other fellows are hanging around the newspapers getting interviewed. Jeff appears to be nine in the game with only one to go.

SAM TILDEN manages to get along without a boom and in paddling a tub-race appears to hold his own rather better for the lack of the out-riggers.

THOSE Yazoo fellows ought to be paid out of the republican campaign fund. They are contributing famously to the election of a radical president.

GENERAL SHERMAN is invidious. In speaking of "Brother John's" usefulness to the country, he omitted all reference to the worthy achievements of Brother John's able female assistant, the Honorable Agnes Jenks.

THE Yazoo bull-dozers took their cue from the action of the radical press toward George Gorham, of California. The Yazoo boys only took the latest approved system of making themselves solid.

WE are daily getting on in the æsthetics of murder and assassination. A la Cool Burgess, it is quite the ton to shoot your man and then detail the particulars to a delighted audience from behind the foot-lights.

THE San Francisco fellows who entertained the wrong Bill Chandler did not make such a frightful mistake after all. Both of them are jugglers, but one is in the "legitimate" business and the other in the illegitimate.

CALICO CHARLEY, of Ohio, affects to scare at the solid south. Charley had about as much to do with making it solid as anybody in the country, except Hayes. It is only stage fright that ails the Dolly Varden statesman.

The Impeachment Trial.

Courier Journal.

Let the Georgians investigate thoroughly and act promptly. If the democrats can not put honest men in office and keep them there, the people will not worry themselves about the corruption of the republican officials.

Albany Advertiser.

Senators who have been engaged in these wild land transactions, whether it be to the extent of negotiating with the comptroller for fi. fas. issued by him or not, are not competent to sit as a court in this trial, and should be politely invited to retire during the entire proceedings.

New York Star.

The democrats of the Georgia legislature follow up the charges against the state comptroller-general by taking the necessary steps for his impeachment. The republicans of the Pennsylvania legislature follow up the charges against the notorious "Bill" Kemble by taking the necessary steps for concealing his guilt. The contrast makes its own comment.

Thomasville Times.

The stalwarts are holding up their pure, lily white hands in holy horror over the impeachment of a democratic comptroller-general in Georgia. Just this difference, gentlemen: The democrats unearth and punish fraud wherever found and by whosoever committed, whether it be democrat or radical, while you shield your thieves from punishment by throwing every obstacle in the way for their trial and punishment. A very slight difference, you see in the course pursued by the two great parties. Just shinny on your side, will you; we'll look after defaulting democrats.

Quitman Reporter.

If the supplementary report can be sustained by facts as alleged, then the comptroller will deserve the severest punishment known to the law for high crimes and misdemeanors, but we are not one of that kind who are ready to condemn a man without first giving him a fair and impartial trial, and think that we discover in the minority report much evidence that will tend to the exculpation and exoneration of the comptroller. The whole fact of the matter is, nothing has yet been proven, therefore there should be the most liberal construction given to the acts and doings of the comptroller possible.

Opinions of Georgia Editors.

Berrien County News.

What was the objections to the old penitentiary system? Was it too expensive or had the state become tired of maintaining the system? Neither. We believe that the bill for the leasing out of the state convicts originated with a few men who saw wherein fortunes could be made out of this cheap labor, and laying every other consideration aside they concentrated their influence upon the legislature for the accomplishment of this particular object and succeeded.

Early County News.

We see from THE ATLANTA CONSTITUTION that the bill introduced by Speaker Bacon to expedite trials for murder meets with but little favor in the judiciary committee. To common sense people this is a surprise, and they can only account for it on the theory that the judiciary committee being composed of lawyers, they are fearful fees may be shortened by the proposed process of Major Bacon. Never have we known a bill to meet with more general favor from press and people than has this one, and we sincerely hope the legislature may be governed by what appears to be the universal wish of the people instead of the wish of the committee, be they what they may. We can see no possible objection to it, unless it should be unconstitutional, and this we have not heard even intimated. Enact the bill into a law, and it will do much towards staying the hand of the murderer.

Macon Telegraph.

How preposterous the idea of finding any rottenness in the department of Dr. Orr, who, by his most intimate friends, has been dubbed "Socrates" for his wisdom and calm philosophy, and is equally entitled to be called the Aristides of Georgia, for surely no man was ever more "just" than he. It makes us smile to fancy that dreadful committee at work searching the pigeon holes of our old college friend for some damnable self-convicting document, while his lieutenant, Mark Johnson, as pure and high-minded as any knight of King Arthur's round table or Spanish Hidalgo, looks grimly on with daggers flashing from his eyes. Oh, this is richness! But what will the committee say when they find that the doctor, albeit he was entitled to his traveling expenses when making the rounds of Georgia in behalf of the dear interests of her people, refused to touch a cent of the fund appropriated to defray his expenses? Out of his own means and with the generous assistance of the agent of the Peabody fund, has he devoted long months, and traveled thousands of miles as the avant courier and missionary of free education, a dog law and the Moffet bell punch.

A Southern Outrage.

Detroit Free Press.

Dr. J. Marion Sims, of New York, has taken up the cudgels in behalf of the late Dr. Crawford W. Long, formerly of Athens, Ga., for whom he claims the credit of first discovering the application of anæsthetics in the performance of surgical operations. The oldest date of discovery claimed for either of the other contestants is 1844 or 1846. Dr. Sims shows, as conclusively as testimony can show, that Dr. Long used sulphuric ether in March, 1842, on a patient upon whom he was operating for the removal of a tumor. He intimates that the friends of Dr. Long intend to petition congress for an appropriation in recognition of the services rendered to the country and the world in making this truly wonderful discovery. A more palpable case of southern outrage the stalwart party has never witnessed. It is a concerted scheme to rob the north of honors, which it has heretofore held by undisputed title, and confer them on a southern state. Moreover it includes an appropriation, a swelling of that mighty mass of southern claims whereof the organs have discussed so fluently, and with such hopeless abandonment of arithmetic. It is a matter that demands immediate attention. If the stalwarts do not awake at once to the importance of the situation, the honor of the north will be irrevocably in the grasp of Georgia.

Republicans Defying the Laws.

Springfield (Mass.) Republican.

The evidence throughout the Cincinnati investigation into the congressional election in 1878 shows that special deputy marshals were appointed, not to keep the peace at polls, but to increase the republican vote. A wise provision of the federal election law requires these officers to be appointed from the qualified voters of the precinct in which they serve. Plain and obvious reasons exist for this enactment, if these officers are to do their duty efficiently. The federal marshal testified, however, that in 1878 special deputy marshals were elected from republican wards and sent to act at democratic polls. Obedience to the plain letter of the election law by the executive officers of the government is, to say the least, quite as much a public duty as the passage of appropriations for their execution; about which the republicans had a good deal to say six weeks ago.

Another Exodus Threatened.

Boston Herald.

Georgia is inhabited by white men, negroes and dogs. Every prosperous colored family has one dog, the poorer families keep two, and the most impecunious negro will be found to possess from three to a dozen. This explains why sheep farming in Georgia partakes of the hazardous characteristics of investments in mining stocks. Recently the state superintendent of schools framed a bill, by which it was proposed to make the dog population contribute a tax for the maintenance of the common schools. Immediately a howl of disapprobation went up, which was heard across the Alabama line. The negroes, although the watermelon season was at its height, and the planters' chickens were at broiling size, threatened to get up an exodus.

An Important Omission.

Baltimore American, rep.

Georgia is endeavoring to pin the murderer down. A bill now before the legislature provides that the courts must drop all other business to hasten through murder cases, and if there be no court in session, the judge must call an extra session and at once try the case; it must then go direct to the supreme court, there to be affirmed or reversed, and if reversed a new trial must be had immediately. Nothing is said about hanging a man five minutes after the verdict is pronounced.

As True as Ever.

New York Sun.

Mr. Tilden once said a very wise thing, to-wit, that great success in American politics is not to be achieved by pipe-laying and wire-pulling, by truck and dicker, but by fidelity to those fundamental principles which lie at the bottom of our and democratic institutions are dear to the hearts of the people. That is as true now as it was when Mr. Tilden said it.

Loud Silence.

New Haven Register.

The Glover investigating committee report has produced a profound silence in the republican camp. Mr. Glover "will get himself disliked" if he tells any more disagreeable truths about the corruptions of the federal officeholders of Washington.

His Burden.

New Haven Register.

The hotel clerk, beneath his flashing diamond, carries his burden—for does he not know that he has rented seven more rooms than there is in the house, and all the barns in the neighborhood full.

A Bamboo Briar.

Philadelphia Chronicle-Herald, dem.

That Glover report is a thorn in the republican flesh. The party of "great moral ideas" can't sit down with any comfort, and doesn't find it altogether pleasant to lie on its back.

Cruelty to Egyptians.

New York Express.

Rather cruel in the Sun to call the World "a daily miscellany printed in this city for private circulation." But the truth about that ex-newspaper is cruel as the judgment day.

The Amiable.

Baltimore Gazette.

Mr. Hayes frowns upon the Panama canal scheme advocated by M. De Lesseps. Mr. Rogers has probably posted him.

THE GEORGIA BRANCH OF
The National Bell Telephone Co

Licensed under the Patents of Prof. Alex. Graham Bell,) is now prepared to serve the people of Atlanta and vicinity with that most wonderful invention, THE BELL SPEAKING TELEPHONE, now so extensively in use in other cities.

What does this "Exchange" do?

First. It places the Bell Telephone, with an Electric Signal Bell, in your office, store or house, connecting the same with the Central Office, thus enabling any one present to have instant speaking communication with any subscriber to the Exchange. The voice is plainly recognized and the conversation will not be heard by a third party. You can order goods from the grocer or butcher or druggists or dry goods store; call or consult your physician; call a carriage, or communicate news or directions for work as well as by going yourself, and, ofcourse, with an immense saving of time and exertion. Any one who can talk can use the Telephone, and the office is open day and night.

Second. The Exchange maintains an efficient and reliable Messenger Service. Prompt, active and intelligent Messengers can be had on call, at any time, to go upon any errand for any conceivable purpose. Rates: Per hour 25 cents; half hour, 15 cents; fifteen minutes, or less, 10 cents.

Third. We will send, immediately, on call, hacks or carriages to any part of the city at regular rates.

Fourth. We furnish, promptly, teams and trucks for heavy hauling, or express wagons for light work, as cheaply as can be done.

Fifth. Messages will be sent to any part of the city by Telephone, both for subscribers and others, in the same way as by telegraph, written on blanks prepared for the purpose.

How can I become connected with the Exchange?

Send word to the Central Office by postal card, messenger, or through your friends' Telephone, and you will be promptly waited upon.

What does it Cost?

For places of business the rental for Signal Bel and two Telephones is $46.00 per year, payable in advance. Private Residences, two Telephones and Bell, $36.00 per year, payable in advance. No lease made for less than a year. There is no other charge. The wires and instruments are put up and kept in repair at our expense. The outlay for the rental is not an extra expense, but an actual saving of sometimes many fold the amount of ten or fifteen cents per day, as the experience of thousands has abundantly proved.

The fact is, you CANNOT AFFORD to be without THE TELEPHONE.

SUMMER RESORTS.

Porter Springs.

WANTED—EVERYBODY TO REMEMBER, during the hot weather, that PORTER SPRINGS is near the top of the Blue Ridge Mountain; that its altitude is about 3,000 feet; that Blankets are needed every night during the summer: that its water always cures Rheumatism, Neuralgia, Sciatica, Dyspepsia, and diseases of the Kidneys: that the mineral water is tonic and the mountain air is tonic: that the Bath Rooms, Swimming Pool, Billiard Tables, Ten-Pin Alley are all FREE; that Porter Springs is the ONLY PLACE in Northeast Georgia employing a fine Brass Band and Orchestra; that the House is kept as well as any in Georgia, and that with all these advantages Board is only thirty dollars per month.

THE MOST COMFORTABLE RESORT IN THE SOUTH.

Stanton House,
Chattanooga, Tenn.

THIS SPACIOUS HOTEL IS MOST ELEGANTly furnished, has perfect ventilation, commodious grounds, courteous attention and the table is at all times supplied with the best the market affords.

The Scenery—From the Stanton House is simply grand. The cloud capped peak of "Old Lookout" Mountain, towering 2,000 feet above the plain, stands a tireless sentinel, keeping a faithful watch over the inhabitants of Chattanooga. A fine carriage drive takes the tourist to the top, where the Scenery is Grand beyond Description. The traveler can view six different States from the top of "Lookout." To the east, in full view from the verandah of the "Stanton House," lies the Battle-ground of Mission Ridge, with its line of redoubts and fortifications still extant; the National Cemetery lying in the rear; the renowned Battle-field of Chickamauga only seven miles distant.

The Climate of Chattanooga is surpassed by none other—the air is healthful and invigorating. During the hot sultry months the rooms of the Stanton House are always kept cool by a pleasant breeze ever present in the valley.

To allow all the benefits and comforts of "This Palace Hotel" Tickets will be sold by the Western and Atlantic Railroad Company, from Atlanta to Chattanooga and Return, including one week's board at the Stanton House, for $12.00; including two week's board at Stanton House, for $18.00; including three week's board at Stanton House, for $21.00; including four week's board at Stanton House, for $24.00, and for a longer time at same rates. Parties of ten or more can obtain very low rate for excursion for a shorter time than one week.

By strict personal attention to the wants of guests we endeavor to make all feel at home. Come and see us. For particulars address

SOUTHERN REMEDY.

ROSADALIS!

ROSADALIS

THE GREAT SOUTHERN REMEDY for the cure of Scrofula, Scrofulous Taint, Rheumatism, White Swelling, Gout, Goitre, Consumption, Bronchitis, Nervous Debility and all diseases arising from an impure condition of the blood.

The merits of this valuable preparation are so well known that a passing notice is but necessary to remind the readers of this journal of the necessity of always having a bottle of this medicine among their stock of family necessities.

Certificates can be presented from many leading Physicians, Ministers, and heads of families throughout the South, indorsing in the highest terms The Fluid Extract of Rosadalis.

Dr. R. Wilson Carr of Baltimore says "he has used it in cases of Scrofula and other diseases with much satisfaction."

Dr. T. C. Pugh, of Baltimore, recommends it to all persons suffering with diseased Blood, saying it is superior to any preparation he has ever used.

Rev. Dabney Ball, of the Baltimore M. E. Conference, South, says he has been so much benefitted by its use that he cheerfully recommends it to all his friends and acquaintances.

Craven & Co., Druggists, Gordonsville, Va., say it never has failed to give satisfaction.

Sam'l G. McFadden, Murfreesboro, Tennessee, says it cured him of rheumatism when all else failed.

Rosadalis is not a secret quack preparation, its ingredients are published on every package. Show it to your Physician and he will tell you it is composed of the strongest alteratives that exist, and is an excellent Blood Purifier. Did our space admit we could give you testimonials from every State in the South and from persons known to every man, woman and child either personally or by reputation.

Rosadalis is sold by all Druggists.

Invented by E. N. Horsford, late Professor in Harvard University.

This reliable Preparation still stands at the head for making sweet, light and nutritious Bread, Biscuits, Rolls, Cake and Pastry.

It is a perfectly health Preparation and contains none of the injurious ingredients so commonly used in ordinary Baking Powders.

It contains in itself the valuable nutritive properties which are lost with the bran in bolting fine flour. No other Baking Powder or anything else used for raising bread contains any nutritive ingredient.

The cost is about fifty per cent. less than ordinary Baking Powder, and the product is better.

The most eminent medical and chemical authorities in the world testify to its superior qualities.

BARON LIEBIG, the greatest chemist of the age, says: "I consider this invention as one of the most useful gifts which science has made to mankind."

DR. M. H. HENRY, the eminent New York Physician, says: "The use of Horsford's Bread Preparation offers admirable means for the introduction of a valuable element into the system with the food of every day life."

PROF. J. C. BOOTH, of Philadelphia, the distinguished chemist, says: "We have no hesitation in recommending your Preparation as a superior substitute for cream of tartar in the preparation of bread."

If your grocer has not got it send a three cent stamp to the manufacturers for a sample, or 35 cents in stamps for a regular package, post paid.

CUTICURA.

Cuticura

BLOOD AND SKIN HUMORS

Speedily, Permanently, and Economically Cured by the Cuticura Remedies when all other known medicines and methods of treatment fail.

Scrofulous Ulcers and Sores; Abscesses, Milk Leg, Fever Sores, Erysipelas Sores, Old Sores and Discharging Wounds, Boils, Carbuncles and Blood Impurities, which manifest themselves by bursting through the skin and eating deep into the flesh, when treated internally by the Cuticura Resolvent and externally with the Cuticura and Cuticura Soap, rapidly heal and disappear. Salt Rheum or Eczema, Tetter, Ringworm, Psoriasis, Leprosy, Barber's Itch and all Scaly and Itching Eruptions of the Skin; Scald Head, Dandruff, and all Irritating and Itching Humors of the Scalp, which cause the Hair to become dry, thin, and lifeless and result in Premature Baldness, are permanently cured by the Cuticura Remedies.

SKIN DISEASE.

A Remarkable Letter from J. A. Tucker, Esq., manufacturer of the Bay State Superphosphate.

MESSRS. WEEKS & POTTER: Gentlemen—I think I have paid for medicines and medical treatment during the last twenty years all of three thousand dollars, without receiving any permanent relief. Last May while taking a Turkish bath at 17 Beacon street, a young man employed there by the name of Wm. Corbett induced me to allow him to apply a preparation that he had upon me, assuring me that it was perfectly harmless, and for a certain consideration he would cure me within thirty days from the time he commenced. In case he failed to do so I was to pay him nothing. I consented and he applied it nearly every day for five weeks, when the disease entirely disappeared. I very cheerfully paid him the amount agreed upon, and then asked him what this remedy was, and he replied that it was no other than Cuticura.

Since that time I have had no trouble from this disease, and have not had such good health in twenty years as I have had during the last six months.

I have since my recovery bought Cuticura and given it to friends suffering with skin diseases, and in every instance it has cured them. I believe it to be the greatest discovery of the present century.

J. A. TUCKER.

13 Doane street, Boston, Dec. 20, 1878.

NOTE.—Mr. Tucker is a well known citizen and has served the city in many important capacities. He is at present a member of the Board of Aldermen. He is also well known to agriculturists and farmers as the manufacturer of the celebrated Bay State superphosphate.

CUTICURA REMEDIES.

Have done for me what hundreds of dollars spent on other remedies have failed to do, and I do not hesitate to recommend them as first-class articles.

Yours truly,
MARK BRANNAN.

Carbondale, Pa., Dec. 20, 1878.

Skin and Scalp Diseases should be treated externally with Cuticura, assisted by the Cuticura Soap, and Resolvent taken internally, until cured and for some time afterward. When the Humors are confined to the Blood and do not show themselves on the surface, the Resolvent alone will speedily drive them from the system. The Cuticura Remedies infallibly cure the most loathsome cases of Scrofulous and Skin and Scalp Humors, as is attested by hundreds of unsolicited testimonials in our possession.

Prepared by Weeks & Potter, Chemists and Druggists, 360 Washington Street, Boston, Mass., and for sale by all Druggists and Dealers. Price of CUTICURA, small boxes, 50 cents; large boxes, containing two and one half times the quantity of small, $1. RESOLVENT, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; 3 cakes, 75 cents.

PATENT MEDICINES.

45 Years Before the Public.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

ATLANTA, GA., July 9, 1879.

The Boyle Ice Machine Company of Chicago, Illinois, have lately built for me a Machine under their patents, of capacity of ten tons of ice daily. The Machine has now been in operation, at my factory near Atlanta, over a month, and I state with pleasure that it turns out its full quantity of ice daily. The Machine, so far as I have tested it, is of the most perfect and substantial character. Having owned an ice factory for several years, I feel competent to say that I consider the Boyle Ice Machine superior to any Ice Machine of which I have any knowledge.

ROUNDABOUT IN GEORGIA.

—A rifle team has been organized in Clarkesville.

—The taxable property of Berrien county has increased more than seventy thousand dollars in the past year.

—The counties of Talbot and Upson are taking into consideration the expediency of building a free bridge over Flint river at Wagner's ferry.

—Griffin News: Two negroes died suddenly in Pike county last week, having taken poison by mistake. They found the poison in a few watermelons borrowed from a neighbor's patch.

—Kate, the Washington City Post correspondent at Greenbrier White Sulphur Springs, in giving the names of thoroughly attractive people at the springs, mentions Misses Ailmer and Harris, of Savannah.

Cuthbert Appeal: Sportsmen are now having fine sport cat hunting. Last week the largest cat caught in this county for years was captured west of Cuthbert. They are on another chase this morning.

—Cuthbert Appeal: Our friend Saxon, of Buford, laid on our table Monday last the finest peach we have seen in many years. It was 10½ inches in circumference, and weighed nine ounces.

—Memphis Avalanche: Rev. Dr. S. Landrum, one of the best and purest men who ever lived, left Memphis on Tuesday with his noble wife. Hereafter they will permanently reside in Savannah, their old home.

—Toccoa News: Never before has Toccoa been so crowded with visitors. All the hotels and boarding-houses are full, and there is scarcely a night but what some one is turned off for want of accommodations. We need another large hotel. Let some enterprising citizen build it by next season.

—Philadelphia Times: General Bob Toombs left his comfortable quarters at White Sulphur Springs the other day that he might travel fifteen hundred miles to attend a meeting of the board of trustees of the Athens, Georgia, university, from which institution he was expelled when a boy for indulging in a fist fight with his room-mate.

—Savannah Recorder: We learn that steps have been taken by which Savannah will, this coming fall season, endeavor to compete with Augusta and Atlanta in the way of accomodation to the traveling public. There has been some talk about building a central depot in our midst by the Central and Atlantic and Gulf railroad companies.

—Griffin Sun: Major Slaton, formerly of Griffin, has been elected superintendent of the Atlanta public schools. His many friends in this city will be pleased to learn of the distinguished honor which has been conferred upon Major Slaton, and which he so well merits. He will bring to the discharge of the duties of that position rare qualifications.

—Savannah News: An alarm was turned in from Station No. 35 (Central Cotton Press) last night at twenty-five minutes after 11 o'clock, caused by the discovery of a fire in Indian street lane. The fire originated in a small out-building to a house owned and occupied by Mr. Michael Roach and communicated in a few minutes to the house, and from thence to a row of small houses rented by colored people, two of which, occupied by Hannah Brown and Minda London, respectively, were, with Mr. Roach's house, burned probably beyond repairing.

—Americus Recorder: James W. Brady, Esq., one of the young attorneys of our city, has called upon us since his return from Sparta, from whom we gather the following facts: Eleven years ago James N. Hunt, of Hancock county, who had never married, made a will, duly executed, declaring C. W. Dubose, Esq., his executor, and leaving, first a special legacy of $500 each to three of the children and the residue to his colored mistress, the mother, and her eight children, share and share alike. Robert Miller, a colored barber of Americus, having married one of the girls, employed Mr. Brady to go to Sparta and represent his wife's interest. While there his services were engaged by another heir. The property consists of one plantation in Hancock, one house and lot in Sparta, 86 shares Georgia railroad and 71 shares Central railroad, besides $2,500 in money and solvent debts. It is further said that deceased was the owner of some $1,000 worth of Augusta factory stock and other property. His brother and relatives will contest the will, it is thought. One niece, the wife of T. M. Merrett, Esq., resides in Sumter county.

—Albany Advertiser: On Monday last Mr. J. A. Norris passed by Albany on the river with a cedar raft, bound for Apalachicola. By invitation from Mr. Norris we visited his raft whilst it was making a short stop at this point. We found it under the shade of a sycamore near the fair grounds, securely fastened and the crew taking a rest. The raft is forty feet in length, fifteen feet wide and contains fifteen hundred feet of hewn timber. Cedar brings a good price, being good heart timber and in great demand by manufacturer's of lead pencils. The trip from Montezuma to Albany was made in 1½ days. Mr. Norris described it as a good run, there being only six rough shoals—the worst one being about eighty miles (by water) up the river, and called very appropriately, "Little Hell." This is the first raft that has made the trip, and Mr. Norris thinks that with but little clearing out a steamer could be run to Montezuma. The raft left Albany early Monday afternoon, and the crew expected to reach Apalachicola in about five days.

Bogus Certificates.

It is no vile drugged stuff, pretending to be made of wonderful foreign roots, barks, etc., and puffed up by long bogus certificates of pretended miraculous cures, but a simple, pure, effective medicine, made of well known valuable remedies, that furnishes its own certificates by its cures. We refer to Hop Bitters, the purest and best of medicines. See "Truths" and "Proverbs," in another column.

Everything Just Right.

Experienced business men see that the movements of the Stock Exchange offer great advantages to make money, by the new Mutual Capitalization System. Anybody can operate thus, with safety and large profit. Many are getting rich returns from investments of $25 to $25,000. Lieut. H. C. K., of U. S. A., invested $30 in each of three capitalization, realizing during May $863.26. W. C. D., foreman in a Cincinnati manufactory, received June 24, check for $638.28, resulting from a $150 capitalization. New circular, "Rules and Success," with invaluable information to all investors, mailed free. All kinds of stocks and bonds bought and sold. THE COTTON MARKET.

CONSTITUTION OFFICE,
Atlanta, August 11, 1879.

The New York market opened irregular this morning, several points ahead of Saturday's closing quotations. There was a considerable decline reported to-day, the market growing weaker as the day advanced, but just at the close a stronger feeling prevailed, which carried the market up slightly, closing firm with sales of 111,500 bales. The loss to-day was nearly 1-5c. Full particulars of the day's changes can be found in the table below.

Liverpool market closed quiet; sales 15,000 bales, of which 13,200 were American.

At the exchange cotton seems to have been the center of attraction, as business in other departments is reported dull.

From the Commercial Chronicle we obtain the following items: "For the week ending August 8 the total receipts have reached 3,945 bales against 2,503 bales last week, 3272 bales the previous week and 2,809 bales three weeks hence, making the total receipts since the 1st of September, 1878, 4,440,101 bales against 4,263,159 bales for the same period of 1877-78, showing an increase since September 1, 1878, of 176,942 bales. The exports for the week ending August 8 reached a total of 12,857 bales, and the stocks as made are now 104,549 bales. Compared with the corresponding week of last season, there is an increase in the exports for the week ending August 8 of 6,401 bales, while the stocks are 39,539 bales more than they were at the same time a year ago.

MINERAL WATER.

Apollinaris

NATURAL MINERAL WATER.

"Purity, freshness, persistent effervescence, and agreeable flavor alone or mixed with wines or spirits —PRACTITIONER.

Extract from Letter of the U. S. Treasury Department: "In conformity with your request the Secretary of State was asked to cause a thorough inquiry to be made into the matter by our Consul at Cologne, who concludes his report as follows: 'I therefore state that it is my opinion, formed after what I consider a careful and painstaking investigation that the Apollinaris Water bottled at the Apollinaris Spring, as exported to the United States is beyond question a Natural Mineral Water.' The evidence which accompanies the Consul's dispatch abundantly sustains his conclusions that the Apollinaris Water as imported is a Natural Mineral Water."

This evidence was given after thorough examination by such eminent scientists of the Old World as **PROFESSOR A. W. HOFMANN, F.R.S.,** of the University of Berlin, Member of the Scientific Deputation of the Kingdom of Prussia, Vice-President of the Chemical Society of Germany, etc., etc.

PROFESSOR W. ODLING, Professor of Chemistry at the University of Oxford, Chemical Judge at the Centennial Exhibition, Philadelphia, etc., etc. **And others.**

A spurious article, purporting to be the genuine Apollinaris water, being offered to the public, we warn all buyers to be sure that each and every bottle bears the **Yellow Label,** and the name of **FRED. DE BARY & CO., New York, Sole Agents.**

ATLANTA, GA., AUGUST 12, 1879.

SIDEWALK NOTES.

—Several dangerous places on Thompson street need attention at once.

—Atlanta is to have a military academy. It will be opened by the first of September.

—The Athens excursionists returned home yesterday morning highly delighted with their visit to the Gate City.

—We call attention to the advertisement of Judge D. F. Hammond. He offers for sale his splendid place in West End.

—Yesterday Mayor Calhoun gave transportation to Bill Williams to his home in Bolingbroke.

—The state agricultural society convenes in session at Jonesboro to-day. THE CONSTITUTION will be represented by one of its staff.

—The Thirteenth infantry commenced moving to their new camping ground yesterday, which is located in the rear of Kimball's residence on Peachtree street.

—Read this and bear well in mind—Neuralgine will cure your neuralgia and headache. It is not claimed to do anything else. But it is a specific in these troubles. Hutchison & Bro., proprietors, Atlanta.

—There will be a lawn party at Mrs. Payne's, 383 Marietta street, Tuesday, 12th instant, for the benefit of Third Presbyterian church. Good music and plenty of good things to eat. Come and help.

—All popular and enterprising druggists call the special attention of mothers to Dr. Moffett's Teethina (Teething Powders.) Anodynes only soothe and lull to sleep; Teethina Cures the child, Regulates the Bowels, and saves the parents many sleepless nights of care and anxiety.

—We accidentally came into possession yesterday of a composition written by Major Ben E. Crane, June 9, 1851, on the "Improvement of Time." If Colonel Wyly will have a committee of Alabama street merchants appointed to receive this ancient document we will turn it over. They will see that time has continued to make improvements.

Police News.

THE CONSTITUTION man learned some interesting facts from the chief of police last night. During the month of July 57 state arrests and 382 city arrests were made, making a total of 409. There were 201 city cases fined; 151 dismissed. The amount of fines collected, including station-house fees and impounded stock foots up $500.85. The amount of fines worked out and being worked out on the street was $170 20. The fines remitted sum up $49. State cases prosecuted, 35.

Chief Anderson keeps a well arranged time report which shows at a glance the number of days which each policeman has worked—the number of absences—and the cause of each absence during the month.

The reporter of these items hastens to state to an anxious public that he came in contact with no red tape and was confronted by no double-barrelled orders during his pleasant conversation with Chief Anderson. The chief is ever ready to favor him with all the "dots" at his command; for which, all thanks.

Sale by G. W. Adair.

To-day Mr. George W. Adair will sell upon the premises some of the most valuable centrally located property in the city. The property referred to consists of two brick buildings, one of them located on Broad street, near Alabama, and now occupied by Mr. Mann as a blacksmith shop, and the other situated on Alabama street adjoining Redd's stables. Each of these buildings have upstairs apartments in fine condition and renting well. A full description of the property will be seen by reference to our advertising columns. The sale will take place at 4 o'clock this afternoon, and parties desiring to make a good investment had better attend.

A Carload of Silver.

The passenger train of the Western and Atlantic railroad, which reached this city Sunday night brought with it a carload of silver bullion, which was taken on at Dalton. The bullion was in the shape of bricks weighing 100 pounds each. The precious white metal was from the Philadelphia mint and was en route to the New Orleans mint. It went forward to stay. An official was along with the bullion looking after its safety. Many of the passengers on board of the train were much interested over the sight.

The City of Atlanta.

NEW YORK, August 11.—The steamship City of Atlanta, Captain Woodhull, of the Charleston line, having received a thorough overhauling and repairing, proceeded to sea yesterday morning on a trial trip and returned in the afternoon. The trip was entirely successful and encouraging.

GENERAL ASSEMBLY.

THIRTY-FOURTH DAY'S PROCEEDINGS.

The Senate.

ATLANTA, August 11.—The senate met at 10 o'clock and was called to order by President LESTER. Prayer by Rev. Mr. GWIN. The roll was called and a quorum found present. The journal was read.

Mr. DUNCAN moved to reconsider the bill to lease the Macon and Brunswick railroad.

On the motion to reconsider, Mr. HOLCOMBE called the ayes and nays, and argued in favor of reconsideration that the section providing that the lessees must be worth over $150,000. Some of the friends of the bill had promised him to aid a reconsideration if he would vote for the bill.

Mr. FAIN favored the motion to reconsider.

Mr. DUBOSE opposed the motion to recodsider.

Mr. PRESTON opposed the motion to reconsider.

Mr. HOLCOMBE replied to Mr. PRESTON.

The motion to reconsider was lost. Yeas 13; nays 20.

The finance committee made a report.

Mr. DUBOSE moved that the senate give permission to Mr. HOLCOMBE to record his vote against the passage of the bill to lease the Macon and Brunswick railroad, as he said he had voted for it with the understanding that it would be reconsidered.

The PRESIDENT—That is a question of privilege for the Senator from the 39th.

BILLS READ FIRST TIME.

The roll was called for the introduction of bills and the following were offered:

By Mr. DUNCAN—To change the time of holding the superior court in Douglas county. Engrossed.

By Mr. STEPHENS—To require tax receivers and collectors to return, by name, all dealers in spirituous liquors. Referred to committee on judiciary.

By Mr. TURNER—To amend law as to divorce suits. Referred to committee on judiciary.

By Mr. LESTER—To change time of holding the superior court in Chatham and other counties.

Mr. CASEY offered a resolution that 100 copies of the report of the committee on the lunatic asylum be printed. Agreed to.

Leave of absence was granted to Mr. CLEMENTS on account of sickness.

THE NEW CAPITOL.

The house resolution on the subject of the location of the new capitol was, on motion of Mr. LUMPKIN, taken up and read.

A message was received from the house of representatives relative to the passage of certain bills by that body.

The resolution relative to the capitol provides that the council shall donate the city hall lot and several lots adjoining, in lieu of the proposition of the city to give the city hall lot alone and to build thereon a capitol as good as the old capitol at Milledgeville. The resolution was unanimously concurred in.

The house resolution giving the superintendent of the lunatic asylum additional discretion was read and adopted. It provides that he may refuse to admit harmless idiots when more dangerous lunatics are not provided for.

HOUSE BILLS READ FIRST TIME.

A number of house bills were taken up, read the first time and referred to appropriate committees.

Several house bills were read the second time.

BILLS ON THIRD READING.

A bill to define lobbying and prescribe the punishment therefor. The committee on the judiciary recommended its passage by substitute, which was read.

A substitute offered by Mr. CLEMENTS, of the 44th, for the substitute of the committee was read.

Mr. CLEMENTS briefly stated the reasons why he preferred the substitute he had offered to that offered by the committee. He thought the substitute of the committee went too far and made criminal that which should not be so considered. The right of petition is sacred and should be protected. The substitute is calculated to throw suspicion on honest efforts.

Mr. McDANIEL, chairman of the judiciary committee, said he did not think the substitute of the committee went too far. It had been carefully prepared and could be easily carried out. The bill admits all appeals simply to the reason of legislators. The bill provides that all approaches to legislators should be under true colors and not under false representations. False statements of interest in a measure should be made criminal. The constitutional convention declared lobbying a crime and placed upon us the duty of fixing its punishment and enacting laws that can control it. The committee's substitute will do this.

Mr. CLARKE said that he had at first regarded the action of the convention on this subject as idle. He had changed his views after careful consideration. But he did not propose to vote for anything impractical or absurd. The substitute offered by Mr. CLEMENTS does not carry out the constitutional provision.

Mr. CLARKE defined his position very clearly. He did not desire any curtailment of the rights of the citizen to approach a legislator in a proper manner. The substitute of the committee he thought amply provides for an execution of the law, while it does not deprive anybody of any right or privilege. On a question so delicate, concerning a crime so difficult of definition, legislation must be guarded with care. The substitute offered by the committee brings every advantage that could be wished for a bill on such a subject.

Mr. CUMMING said he was opposed to the bill in general and detail. He would vote for the substitute of Mr. CLEMENTS first, but if that were adopted he would vote against it on the passage of it as a bill. He did not propose to disobey the constitution, but the constitution could place on him no obligation to embark in any absurdity. He opposed the bill in detail, because it simply declares that lobbying shall not be practiced while the legislature is in session. It provides against lobbying at no other time. The bill declares that the offense can only be committed by one who misrepresents his interest in any measure. But suppose he has no interest, or worse, suppose that he has no interest and boldly declares it and then influences a legislator, he is guilty of nothing. For these reasons Mr. CUMMING opposed the bill. Generally he opposed the bill because it is an attempt to legislate integrity into a people. If you have an honest legislature the lobbyist has no power over them. If the legislature is not honest you cannot destroy the power of the lobbyist by any legislation. Why did not the wise men who declared that lobbying should be a crime, define what lobbying is? There are laws now against all corrupt practices. Some demagogue in the convention, glorying in his own righteousness, introduced this glittering generality into the constitution to declare how much better than other men he was. A representative wants all the light he can get on a matter of public interest, and yet when a representative seeks such information he is to be suspected of a felony. The line cannot be drawn on this question. Are we to adopt the absurdities of Puritanism? The constitution speaks in such an uncertain tone that I do not consider that it speaks at all.

Mr. McDANIEL said it was important that such a wise body as the convention and a great majority of the people of Georgia should differ in their views on this question from the senator from the 18th. But unfortunate as it is, it cannot now be well helped. He did not stand as the champion of the convention. Lobbying is well defined in law and has long been defined in English law. A decision of the supreme court of the United States has clearly declared what lobbying is. The senator from the 18th informs me that he will deny this statement, but I affirm that the decision settled the very principle of this issue. There is no difficulty about declaring what lobbying is. The constitution declares it to be a crime and the substitute of the committee defines how it shall be punished. The bill confines its provisions to that which has been declared against the public policy. There is no suspicion cast over the honest effort of any man. We are not after such men, but we are after the hired vultures which hover around the legislature.

Mr. CUMMING—I will undertake to care for the vultures.

Mr. McDANIEL—I am glad the senator feels that he needs no assistance, but as for me, I so far feel the weakness of my human nature that I am willing to join in that prayer recommended by our Saviour: "Lead us not into temptation." As for myself, I am ready to accept anything which will keep me out of temptation.

The rules were suspended, Mr. McDANIEL yielding the floor.

The committee on enrollment made a report, which was read.

Hon. Thomas Wicker and Judge D. B. Harrell were invited to seats on the floor.

Under the suspension of the rules a bill to incorporate the Hartwell railroad company was read a third time and passed, as amended by the committee; yeas 32, nays 1.

The senate then stood adjourned to tomorrow morning at 10 o'clock.

House of Representatives.

The house was called to order at 9 a. m. by Speaker BACON and opened with prayer by Representative TALIAFERRO.

The special order, being the consideration of the bill providing for organizing judicial divisions in the state was taken up, the order discharged and the bill set down for Wednesday next, at 10 a. m.

ON FIRST READING.

Mr. FORD—To authorize the governor to supply counties with copies of the code, supreme court reports, and standard weights and measures, where the court house been destroyed by fire. Referred to the committee on judiciary.

ON THIRD READING.

To authorize the comptroller-general to administer oaths. Passed.

To amend section 3036 of the code. Passed.

To provide for the redemption of land sold for taxes due municipal governments. Passed.

SENATE BILLS.

To enforce section 4 of article 8 of the constitution. Recommitted to finance committee.

To cede to the United States certain land in the Savannah river for a national quarantine. Read third time and passed.

ON SECOND READING.

To appropriate $250 to Oglethorpe Light Infantry, of Savannah. Withdrawn.

To provide compensation for the ordinary of Washington county. Withdrawn.

To authorize the board of commissioners of Houston county to let out contracts for a term of years. Withdrawn.

To authorize the governor to pay the Philadelphia, Wilmington and Baltimore railroad. Lost.

CONCURRED IN.

The house took up the senate amendments to the house bill authorizing the city of Macon to issue $750,000 of interest-bearing bonds and concurred in them.

TO BE WIPED OUT.

The house took up and agreed to the senate resolution authorizing the governor to have removed from the state-house the sign "Kimball opera-house."

COMMITTEE OF CONFERENCE.

The senate having refused to concur in the house substitute for the bill to carry into effect paragraph 18, section 7, article 3 of the constitution, Mr. Yancey moved that the house insist on its substitute, and ask for a committee of conference of two from the senate and three from the house, which prevailed. Messrs. Yancey, Mynatt, and Kinsey were appointed on the part of the house.

LOCAL AND SPECIAL.

The following was read by the title and referred to the committee on local and special bills:

Mr. KENDRICK—To repeal the act incorporating Weston.

RESOLUTIONS.

Mr. GARRARD offered a resolution that the special committee to investigate the office of principal keeper of the penitentiary be authorized to employ a stenographic reporter and a sergeant-at-arms, which was agreed to.

Mr. STROTHER offered a resolution directing the committee on penitentiary to inquire if there is any statute adequately providing for the indictment and punishment of parties guilty of cruel and inhuman treatment of convicts, and if they find no such statute to report a bill making the cruel and inhuman treatment of convicts indictable and punishable as a crime. Agreed to.

Mr. HULSEY asked to be excused from serving on the special committee to investigate the office of principal keeper of the penitentiary, which was granted. Mr. ANDERSON, of Newton, was appointed in his place.

Mr. STRICKLAND offered a resolution that on and after next Wednesday no new matter be entertained unless by a two-third vote. Referred to committee on rules.

Mr. YANCEY submitted the memorial and resolutions of the alumni association of the university of Georgia relative to Dr. Crawford W. Long, which was referred to the committee on education.

Mr. PERKINS offered a resolution that the committee on public library examine into the condition of the public library and report at once on what is necessary for its preservation, which was agreed to.

Mr. HALL offered a resolution that when a bill is withdrawn, a member shall be permitted to retain the same upon receipting the clerk for it, which was agreed to.

The use of the hall was tendered the colored Odd Fellows at 3 p. m.

A number of bills were read the second time and passed on for a third reading.

The house adjourned until 9 a. m. tomorrow.

THINGS IN GENERAL.

Bainbridge Sends Up a Budget of News.

BAINBRIDGE, GA., August 11.—Hon. R. H. U. C. Davidson, member of congress from 1st congressional district of Florida, and J. W. Malone, a leading member of the bar of the same state, were guests of the Shawn house, Tuesday.

Halam Harrell, who has had five year's experience in the penitentiary, was arrested and lodged in jail Saturday night last, by Sheriff Burkett, Marshal Smart, and Waters, constable, under a warrant from Muscogee county, charging "assault with intent to murder" a Columbus policeman and a negro.

Our merchants are busy receiving large stocks of fall goods and clerks.

Work on the buildings of Mrs. T. B. Hunneywell and Dr. A. T. Boum has commenced. Mr. Tye puts up two brick stores for her and one for Mr. Boum eighty feet in depth.

Bamdt & Son and J. P. Dickinson are going to have brick extensions added to their stores on Broad street.

The torpid state of the fighting market was "upsot" yesterday. Two gentlemen, Amran and Loeb, had a "spute" and slung words and jelly glasses at each other furiously for a few moments. No blood—the missiles missed.

Tom Clark, living near here, killed a large rattlesnake Tuesday. It was six feet long; fifteen inches in circumference, and had fifteen rattles and a button.

The heaviest rain that has fallen on our earth since Uncle Noah's little shower, fell upon us last Sunday evening, lasting two hours. We are having two much rain and cloudy weather. Catterpillars are increasing, endangering king cotton's prospects seriously.

Our colored base-ball club, Orientals, and the "Lone Stars," black stars, of Quincy, Florida, played a match game yesterday. The former won by a score of fifteen to eleven.

MRS. J. L. ROBERTSON.

The Grand Musical Event of the Season.

We are likely to have in DeGiv's opera house next Friday night the greatest crowd that we have seen there since Booth played Hamlet to 1,760 people. Mrs. J. L. Robertson, who is well known in musical and social circles in Atlanta, and, indeed, throughout the south, is in the city for a few days, and her friends and the musical profession generally have tendered her a benefit. The entire musical talent of the city has offered its services, and the most competent and experienced hands are selecting a programme that will surpass in its general strength and attractiveness anything ever heard in Atlanta. It will be the work of no club or society, but of the entire musical talent of the city.

Aside from the general programme, the singing of Mrs. Robertson will be, of course, the feature of the evening. Mrs. Robertson has never had a superior on the stage in Atlanta—either amateur or professional, and her training for the past two years in New York has greatly added to the power and sweetness of her singing. She sang in New York before the severest critics and disarmed all criticism and won the warmest praise. The triumphs that she achieved before various audiences there were phenomenal and brilliant. She is destined to a most remarkable career on the lyric stage. Our people will hear nothing finer in many a year than her singing on next Friday night.

Besides all this, it behooves the people of Atlanta to give Mrs. Robertson the encouragement and indorsement of a huge house. She is a Georgia woman—an Atlanta woman—and she should have a rousing house. Let every seat be taken.

FOREIGN FLASHES.

What They are Doing in the Old Land.

LONDON, August 11.—The Standard's Paris dispatch states that duke de Rivoli, the Bonapartist ex-deputy who was recently put up for councilior-general in the district of Nice, has been fined 3,000 francs for bribery and corruption, and his two electoral agents have been sentenced to one week's imprisonment. M. Auguier, now councillor-general of Nice, has been sentenced to one month's imprisonment for aiding and abetting in the above named crimes.

The Post's Berlin correspondent says it is reported that the Prussian minister of justice will resign when the new judicial laws come in force.

A dispatch to the Times from Calcutta, dated yesterday, reports that cholera is still raging among the troops and the natives of Candahar and is spreading towards Herat. The Rumpa disaffection is spreading. The insurgents are badly armed, but carry on guerrilla warfare operations against them. They will not be successful till after the raining season is over, when the troops can follow them into their fastnesses.

Three thousand miners of Silverdale, north Staffordshire, have struck against the increase of hours or a reduction of ten per cent. in wages.

The Sportsman announces that Huggins will arrive at Putney to-day to prepare for his match with Boyd which is to take place September 29th.

The correspondent of the Times at Paris reports that M. De Lesseps, speaking at Beauvais, said there were energetic Latin races in America who were greatly interested in the Panama canal. He said he had proofs that the United States does not think of resistance to the undertaking. Such a course would expose them to the censure of the whole southern population of the new world.

It is hoped that the expedition to Nova Bazar will be delayed until next year.

The Standard's Vienna dispatch reports that the Danube flotilla, which ought to have gone to Odessa, is still at Bustatuk.

Special dispatches received here are very contradictory as to Germany's intention relative to the coinage question.

A Berlin dispatch to the Morning Post says it is understood that the government is making careful inquiry into certain facts in view of the coming decision as to the proposed reintroduction of the bi-metallic standard.

The Russian ambassador has supported the representations of the prince of Bulgaria in reference to incursions of the Turkish troops in Bulgaria. The porte has promised to enquire into the matter.

The municipality of Marseilles has voted 5,000 francs in aid of the amnestied communists.

The Standard's Alexandria correspondent says: The khedive has reduced the civil list to £80,000. The Standard's Vienna correspondent telegraphs: Another fire occurred at Nigini, Navgorod, on the 1st instant, during the fair, causing great damage.

Rev. H. H. Tucker.

Rev. H. H. Tucker D. D., pastor of the Baptist church at Decatur, preached his first sermon Sunday to a fine congregation. The sermon made a fine impression. The church conference changed the regular day for preaching from the second to the third Sunday in each month.

A large crowd is expected at the Sunday-school celebration to-morrow at Decatur from Atlanta. Special arrangements have been made with the Georgia railroad at reduced rates. A refreshment stand at the celebration will be run for the benefit of the Baptist choir.

Atlanta Y. M. C. A.

Mr. George S. Hanleiter has been elected general secretary of the Young Men's Christian association, and will enter at once upon the discharge of his duties. He is a young man well known in our community for his Christian zeal and integrity, and will have the hearty and undivided assistance of all denominations. Renewed efforts will be made by the organization in all its departments, and we trust the good that it has already accomplished will be greatly increased. If you desire to join the association leave your name with the secretary at the rooms, 68 Whitehall street.

What Mr. Shehane Says.

In Sunday's issue a reporter of THE CONSTITUTION, in directing the attention of the public to the arrest of a batch of colored gamblers in the bar-room under Mr. Con Shehane's store, corner Ivey and Decatur streets, stated upon the authority of policemen who made the arrest that the negro bar-keeper, Bob Stevenson, was either the clerk of Mr. Shehane or rented from him. Mr. Shehane says that Bob Stevenson is neither his clerk nor his tenant. Mr. Shehane further states that he rents the bar to a white man, whose name he did not give.

In justice to Mr. Shehane, the reporter gives his version.

The Fastest Time.

NEW YORK, August 11.—Edwin Forrest, driven by John Murphy, made the fastest mile that was ever trotted in the world yesterday afternoon on a three-quarter mile track on Mr. Bonner's farm, near Tarrytown. The first quarter was made in 32½, half in 1:05¼, three quarters in 1:38¼, and the full mile in 2:11¾. Three watches were held on him. The fastest made the mile in 2:11½ and the slowest in 2:12, consequently the time, according to rule, is 2:11¾.

To New York.

Captain John Postell, civil engineer of the Western and Atlantic railroad and superintendent of the Cherokee railroad; General Wm. McRae, general manager of the Western and Atlantic railroad, and Colonel Charles L. Schlatter, superintendent of the Brunswick and Albany railroad, left yesterday on a visit to New York and other leading cities of the north and east.

Agricultural Works.

We call attention to the card of A. B. Farquhar, proprietor of the southern depot of the Pennsylvania agricultural works at Macon. His stock of steam engines, cotton gins, grist mills, wagons, etc., is excellent and his figures low enough to induce favorable consideration. Read the card.

The Codifiers.

LONDON, August 11.—The sessions of the international code congress were opened today. The lord mayor of London cordially welcomed the delegates. Sir Robert Joseph Phillimore, a distinguished writer on international law, delivered the inaugural address.

The Mayor of Columbus.

Captain Frank Wilkins, mayor of Columbus, is in the city. He looks as young as he did in 1861. He is a veteran in the office of mayor of Columbus, and we happen to know makes a good officer wherever he is placed. He is the only man that ever stopped General Lee's army in Virginia. On one occasion at Monterey, Virginia, when General Lee was about to march, soon after the commencement of the war, all the companies in the first Georgia regiment except Captain Wilkins's company had wagons. He had several men sick in camp, and he was not willing to be slighted, so he drew up his company across the front of the army and swore in round terms that he should not move until he had been provided with transportation for his company. He meant just what he said, and it was apparent to the commanding officers. He was furnished with a wagon in short order, and after that if any company was to be slighted in the regiment some other company than Captain Wilkins's was selected. The captain has met a number of his old comrades in town, and if he holds a vingt-et-une hand, he can't be blamed. He is our guest during his stay in the city.

Madame Sosnowski's Home School.

We call attention to the advertisement, published elsewhere, of the above named school for young ladies, located in Athens, Ga., and of which Madame S. Sosnowski and Miss C. Sosnowski are the associate principals. It is situated in a remarkably healthy climate, and is conducted in the most efficient manner by the ladies who have it in charge, and whose main idea is to make it truly what its name implies—a home as well as a school. The course of instruction is exceedingly thorough, and we can sincerely recommend it to those of our readers who have daughters whom they desire to be well educated. Some of the best names known to our state are to be found in the list of those who have been its patrons in the past, among which is that of Rt. Rev. Bishop Beckwith, who indorses it most highly. The circular which the principals will send to any one on application gives full particulars concerning the school.

AYER'S Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which terminate in the ague paroxysm, succeeded by high fever and profuse perspiration.

It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonics," in the market. The preparations made from these mineral poisons, although they are palatable, and may break the chill, do not cure, but leave the malarial and their own drug poison in the system, producing quinism, dizziness, ringing in the ears, headache, vertigo, and other disorders more formidable than the disease they were intended to cure. AYER'S AGUE CURE thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It contains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its certainty to cure, is that it leaves the system as free from disease as before the attack.

For Liver Complaints, AYER'S AGUE CURE, by direct action on the liver and biliary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition.

We warrant it when taken according to directions.
